BETWEEN

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT,
INTERNATIONAL DEVELOPMENT ASSOCIATION

AND

PARTNERSHIPS IN ENVIRONMENTAL MANAGEMENT FOR THE SEAS OF EAST ASIA

NOVEMBER 25, 2009
This Memorandum of Understanding ("Memorandum") reflects the understanding between the International Bank for Reconstruction and Development ("IBRD") and the International Development Association ("IDA") (together, "World Bank"), on the one hand, and the Partnerships in Environmental Management for the Seas of East Asia ("PEMSEA"), on the other hand (together, "Parties"), to collaborate in the achievement of common objectives as described below.

1. Background

(a) The World Bank’s mission is to reduce poverty, improve living conditions, and promote sustainable and comprehensive development in the developing world. It achieves these objectives by providing loans, concessional financing, grants, technical assistance, and knowledge-sharing services to its member countries and through partnerships with other organizations.

(b) Further to its mission, the World Bank, through its East Asia and the Pacific Region, has an interest in collaborating with public and private entities to foster knowledge-based solutions to address the global challenge of sustainable development in the developing world.

(c) PEMSEA is an intergovernmental regional coordinating mechanism established in 2006 for the implementation of the Sustainable Development Strategy for the Seas of East Asia ("SDS-SEA"). By involving both state and non-state partners, PEMSEA aims to build and strengthen networks of local governments and coastal and marine-related institutions and experts, to mobilize national and regional intellectual capital, and to establish interagency, intersectoral and intergovernmental partnerships for achieving the goals of sustainable development for the Seas of East Asia.

(d) Further to its operations, PEMSEA has an interest in collaborating with the World Bank to foster knowledge-based solutions to address the challenge of sustainable development in the Seas of East Asia, and has invited the World Bank to become a sponsoring organization of PEMSEA with the prerogatives set forth in this Memorandum.

2. Common Objectives

(a) Consistent with their respective mandates, the Parties desire to cooperate in carrying out activities to bring best practices and professional knowledge to bear on critical issues to sustainable development in the Seas of East Asia.

(b) In particular, the Parties anticipate that their collaboration will focus on a number of specific substantive areas such as:
   (i) land-based pollution reduction;
   (ii) integrated coastal and ocean management/governance;
   (iii) climate change adaptation; and
(iv) public-private partnership.

(c) To achieve their common objectives, the Parties intend to consider ways to:
   (i) share knowledge, ideas and lessons learned;
   (ii) plan joint regional workshops and a mid-term stocktaking meeting on pollution reduction in the Seas of East Asia;
   (iii) collaborate on the evaluation of land-based pollution reduction projects in the Seas of East Asia;
   (iv) collaborate on ways to join with other entities engaged in activities similar, supplemental or related to those being pursued under this Memorandum;
   (v) collaborate on the dissemination of the lessons learned/results of projects to the public through publications, the internet, seminars, workshops, conferences and other appropriate means; and
   (vi) periodically evaluate the effectiveness of working in collaboration with each other, with reference to their respective organizational mandates and priorities.

(d) The Parties anticipate that each one of them will contribute to the activities undertaken pursuant to this Memorandum in several ways, including the following ones:
   (i) by providing staff time;
   (ii) by paying related out-of-pocket expenses incurred by its own staff;
   (iii) by providing facilities for workshops, conferences or training seminars;
   (iv) by engaging and funding consultants; and
   (v) by providing support to relevant stakeholders.

(e) This Memorandum provides a framework within which the Parties may develop and undertake collaborative activities. Specific arrangements for individual activities and projects will be discussed and jointly formulated by the Parties.

3. The World Bank as a Sponsoring Organization

(a) By accepting PEMSEA’s invitation to become a sponsoring organization of PEMSEA, the World Bank may send representatives, for technical discussions, to PEMSEA’s EAS Congress, the EAS Partnership Council and other relevant meetings concerning the implementation of the SDS-SEA.

(b) By virtue of the World Bank becoming a PEMSEA sponsoring organization, (i) the World Bank will not contract any obligation to provide financial support to PEMSEA or any of its programs, and will not be endowed with any prerogative or assume any obligation beyond those set forth in this Memorandum, and (ii) PEMSEA will not derive any special advantage or preference in competing with any other entity as regards the procurement of goods, works or services by the World Bank or third parties, even where such procurement results from or has a direct relationship to such activities under this Memorandum.
(c) In a manner consistent with its policies and procedures, and the decision-making prerogatives of its organs, the World Bank will use its best efforts to promote SDS-SEA objectives in financing activities related to the specific substantive areas identified in paragraph 2 (b) in the large marine ecosystems of East Asia.

4. Intellectual Property
