

16-21 November 2015 • Furama Resort, Da Nang, Viet Nam

Global Targets

Local Benefits

Setting the Sustainable Development Agenda
for the Seas of East Asia beyond 2015

Programme

Hosted by the Government of Viet Nam

Organized by PEMSEA, Ministry of Natural Resources and Environment (MONRE), Viet Nam Administration of Seas and Islands, and the City Government of Da Nang and supported by GEF and UNDP.

| Introduction

The EAS Congress 2015 will be held in Da Nang City, Viet Nam from 16-21 November and carries the theme, *“Global Targets – Local Benefits: Setting the Sustainable Development Agenda for the Seas of East Asia beyond 2015”*. The EAS Congress 2015 will focus on assessing lessons learned and progress made in scaling up of good practices and initiatives towards building an ocean-based blue economy, and mapping new objectives and schedule for the East Asian region in support of the UN Sustainable Development Goals and other international agreements and targets.

The EAS Congress will feature the Fifth Ministerial Forum, the International Conference on Sustainable Ocean and Coastal Development, the Fourth EAS Youth Forum, the PEMSEA Network of Local Governments for Sustainable Coastal Development (PNLG), an Environmental Exhibition and many other special events.

Message from the Prime Minister of Socialist Republic of Viet Nam

Conserving and protecting the Seas of East Asia is an undertaking that unites the region and I am very pleased that Viet Nam and its government are contributing significantly to this gigantic task. With 2015 being a landmark year for assessment and reflection for East Asian region, we must take stock of what has been done and what lies ahead towards sustainable development. In this year's EAS Congress in Da Nang, we are optimistic that a closer evaluation of programming implemented in the last 22 years and the gathering of champions of the seas from all over East Asia will yield tighter cooperation, more impactful initiatives, and an objective look at lessons learned.

We hope that in the five-day duration of the EAS Congress, people of various backgrounds with an interest in forwarding sustainable development and integrated coastal management – managers, CEOs, community leaders, scientists and scholars – can present solutions and innovations to the relevant leaders on the national and local levels. The various forums, panel discussions, and field visits at this year's Congress can facilitate better communication and understanding on many key issues and, most importantly, the implementation of SDS-SEA beyond 2015 and our push towards a 'blue economy'. The life of East Asia's coastal people and those living beyond depend on the outcomes of this Congress and similar undertakings will bring forth.

We are honored that our country was chosen as host for this year's Congress. Vietnam has made sustainable development a key part of its journey towards progress. Our commitment to balancing economic growth with ecological conservation is outlined in the country's Sustainable Development Strategy for 2011-2020, which aims to balance sustainable growth with social progress and equality, national resources and environmental protection among other goals. The broader national plan called Strategic Direction for Sustainable Development, or Vietnam Agenda 21, serves as a framework for ministries and other stakeholders to follow during the implementation of programs. We spent considerable time and effort in drafting these wide-ranging national plans and we assure you that we will exert the same amount of energy, if not more, during the implementation phase.

On behalf of the people of Viet Nam, I would like to thank confirmed and potential participants, as well as the organizers for the time they are investing in making the 2015 EAS Congress a success. I am confident that enthusiasm and true concern for the conservation and protection of marine life and the preservation of oceanic biodiversity will make this year's Congress impactful.

Let us all move forward with a clear vision for success. With creativity, optimism and cooperation, our goals shall be within reach.

H.E. Nguyen Tan Dung
Prime Minister
Socialist Republic of Viet Nam

Message from the Minister of Ministry of Natural Resources and Environment (MONRE)

We would like to thank the EAS Congress 2015 organizing committee for choosing Vietnam as this year's host country. As we eagerly await the arrival of participants from all over the region, we in the Ministry of Natural Resources and Environment (MONRE) through the Vietnam Administrations of Seas and Islands (VASI) and other agencies are preparing to provide all the support needed for the event, employing the same zeal and enthusiasm we use in implementing integrated coastal management programs through studied and fleshed-out policies and strategies that have made Vietnam one of the staunch supporters and implementers of the Sustainable Development Strategy for the Seas of East Asia (SDS-SEA).

The Government of Vietnam, through the Ministry, is committed to achieve sustainable coastal development through the implementation of integrated management of sea sand islands, including ICM. Its partnership with PEMSEA and other stakeholders has enabled the scaling up of ICM in other coastal areas of the country. Seven coastal provinces and cities (Nam Dinh, Quang Ninh, Haiphong Ba Ria-Vung Tau, Kien Giang, Soc Trang and Khan Hoa) became priority areas for ICM implementation for 2011-2015, along with the three existing ICM sites of PEMSEA, namely Danang, Quang Nam and Thua Thien Hue. This commitment to sustainable development and cooperation has made Vietnam the ideal venue for this year's Congress. With many model sites to view and study, participants will see first-hand the results of an effective ICM framework combined with practical and inclusive on-the-ground management.

The year's theme called "Global Targets, Local Benefits: Setting the Sustainable Agenda for the Seas of East Asia" fits excellently into Vietnam's integrated sea and island management success. We hope that our experiences will be of benefit to all participants and aid in the formulation of innovative strategies for scaling up ICM programs in other areas, as well as showcasing good practices and initiatives that will lead us to a blue economy.

The seas of East Asia are interconnected with many shared natural resources; and therefore, the conservation and protection of natural resources and environment of the Seas of East Asia need the cooperation of East Asian Seas countries. Through the Congress, we would like to convey a message to all of you that "Please cooperate in the conservation and protection of natural resources and environment of the Seas of East Asia for our benefits."

We would like to thank all of you who have entrusted the task of hosting to us and hope that our triumphs as well as the lessons we learned in achieving ICM goals will serve you all.

H.E. Nguyen Minh Quang

Minister

Ministry of Natural Resources and Environment

Message from the Chairman of the People's Committee of Da Nang

On behalf of the Da Nang People's Committee, I am very pleased and proud that the East Asian Seas (EAS) Congress 2015 will be taking place in our city, a national integrated coastal management (ICM) site. This the first time in the history of the Congress that an ICM site, and a demonstration site – is chosen as the Congress' venue. Da Nang has become an ICM site since 2000 and is one of the eight national ICM demonstration sites established by PEMSEA. Up to now, Da Nang has been a flourishing ICM city with a stably developing economic growth city in Viet Nam, and has become a regional showcase for ICM.

Da Nang City is glad to show Congress attendees the continuing progress the city is experiencing and its transformation into an environmentally friendly city. This is thanks to the huge efforts of the city people and local government, especially the support from the Central Government, nongovernmental organizations and PEMSEA in formulating and implementing sustainable development programs based on sound research, effective and inclusive consultations, and the determination to preserve the coastal environment by making people an indispensable part of conservation. The city has carried out many solutions to help its people become aware of coastal environment protection, encouraging them to become people who manage and preserve natural resources on their coastal area.

In addition to participating in the Congress, delegates can see the charming natural beauty of Da Nang. The city is surrounded by majestic mountains, beaches with white sands and historical structures. It is also a living place for many rare animal species. As we gather to protect coasts, we will all be well treated by the magnificence of this vibrant city in Central Viet Nam.

We warmly welcome all of you. May you experience many wonderful offerings of the city as we work towards a better future for the people of East Asia through the preservation of the region's marine life while providing livelihood opportunities for coastal communities. Thank you and enjoy your stay in Da Nang!

Hon. Huynh Duc Tho

Chairman
Da Nang People's Committee

Message from the EAS Partnership Council Chair

As PEMSEA moves toward self-sustainability and strengthened regional ownership, it is worth noting how it has been able to galvanize the strong support of its partners in the last two decades.

With the East Asian Seas (EAS) Congress as one of its operating mechanisms, PEMSEA was able to mobilize countries and other stakeholders to share lessons learned, replicate best practices, and scale up initiatives in sustainably managing the seas of East Asia.

Since the inaugural EAS Congress held 12 years ago, PEMSEA have provided a conducive platform in mainstreaming integrated coastal management (ICM) by building partnerships among national and local governments, scientific communities, project implementers, funding agencies, corporate institutions and even the youth sector. The triennial forum has also become a venue for these stakeholders to integrate plans and actions directed toward a stronger EAS region.

This year's EAS Congress lies in a pivotal position since we will start laying the foundations for updating regional goals in line with the global discussions on post-2015 sustainable development targets. The theme "Global Targets – Local Benefits: Setting the Sustainable Development Agenda for the Seas of East Asia Beyond 2015" reflects these objectives.

Alongside the EAS Congress, the Fifth Ministerial Forum will delve into policy directions and strengthened commitments among our Country and Non-Country Partners in adopting an updated Sustainable Development Strategy for the Seas of East Asia (SDS-SEA) and setting post-2015 targets for PEMSEA.

On behalf of the EAS Partnership Council, I wish to express our utmost gratitude to the Socialist Republic of Viet Nam, through the Ministry of Natural Resources and Environment the Viet Nam Administration of Seas and Islands (VASI), and People's Committee of Da Nang for their tremendous support and enthusiasm. I look forward to everyone's valuable participation and contribution throughout the Congress.

Welcome to the EAS Congress 2015!

Amb. Mary Seet-Cheng

Chair

EAS Partnership Council

Message from the Executive Director of PEMSEA

The year 2015 is a crucial milestone in the region's continuous pursuit for sustainable oceans and coasts.

With the key targets set to be achieved, most notably the United Nations Millennium Development Goals and the Sustainable Development Strategy for the Seas of East Asia (SDS-SEA), the East Asian Seas (EAS) Congress 2015 provides the perfect opportunity to assess what has been achieved and where the region is headed in the next few years. It is an opportune time for PEMSEA's Country and Non-Country Partners, as well as other collaborators in region, to initiate post-2015 dialogue and outline new targets guided by the global sustainable development agenda, as well as regional and national priorities and objectives.

Realizing its value as an intellectual marketplace and partnership hub, the EAS Congress 2015 is a gathering of regional experts and project implementers to share experiences and monitor the region's progress and impact in addressing emerging threats and challenges faced by the seas of East Asia.

To this end, the EAS Congress 2015 features workshops and key events – including the Fifth Ministerial Forum, International Conference on Sustainable Coastal and Ocean Development, and the Fourth EAS Youth Forum – focusing on the theme “Global Targets – Local Benefits: Setting the Sustainable Development Agenda for the Seas of East Asia Beyond 2015.”

As a testament to the country's progress and commitment, the EAS Congress 2015 is being held in Da Nang, Viet Nam, recognizing Viet Nam's efforts in championing integrated coastal management (ICM) at both the national and local levels. We express our sincerest appreciation to the Socialist Republic of Viet Nam, through the Ministry of Natural Resources and Environment (MONRE), the Viet Nam Administration of Seas and Islands (VASI), and the People's Committee of Da Nang. The hardwork and cooperation of both the National and Local Organizing Committees for the EAS Congress 2015 have resulted in the presentation of an exciting and enjoyable event.

We invite policymakers from national and local governments, representatives from international organizations, CEOs, the academe, the private sector, and nongovernmental organizations to actively participate, share and contribute during this momentous gathering.

Welcome to the EAS Congress 2015!

Mr. Stephen Adrian Ross

Executive Director
PEMSEA

International Conference Chair

Mr. Terence David Jones

United Nations Development Programme

Mr. Terence David Jones has served the United Nations system for 38 years, in 10 duty stations. He was a UN Resident Representative and Resident Coordinator (RR/RC) in Bhutan, Malawi and the Philippines and had served in senior positions at UNDP in Papua New Guinea, Viet Nam, and Bangladesh. Five years prior to his retirement in 2008, he became the Director in the Bureau for Development Policy (BDP), headed the Capacity Development Group, and held positions such as acting head of the Democratic Governance Group and acting Deputy Director in the UNDP headquarters in New York.

After his retirement, he has worked in the Asia Pacific region as a senior policy advisor on development cooperation in Indonesia, Maldives, Lao PDR, Myanmar, and programming for several projects in Indonesia, DPR Korea for UNDP, Lao PDR, and in Viet Nam for CIDA. In 2012, he worked with the UNDP Regional Centre in Bangkok to coordinate support in country offices in preparing for the Rio+20 and its relation to the MDGs. In 2013, he completed his 7 month post as a RR/RC in the Philippines and his 5 month post in Nepal.

Terence had represented UNDP during his post from 1999–2003, on the PEMSEA steering committee meetings held in 2000 in Dalian, China and Busan, Republic of Korea, wherein he supported the development of the Sustainable Development Strategy for the Seas of East Asia (SDS-SEA) and as well as the initial consultations on the institutionalization of the programme into the forming of an intergovernmental body.

Terence received a BA degree in Industrial Economics from Nottingham University in UK and an MA in Development Economics from the New School for Social Research in New York, USA.

Session 1 Chair

Mr. Chu Pham Ngoc Hien

Deputy Minister, Ministry of Natural Resources and Environment (MONRE), Viet Nam

With a Master's degree in Economics, His Excellency Mr. Chu Pham Ngoc Hien started as a lecturer for the Economic Faculty at the Da Nang University of Science and Technology, then for the Planning Faculty of the Da Nang University of Economics. He became a part of the Thanh Hoa Planning Party Committee from 1987 until 2000, then became part of the Provincial Standing Party Committee as the Director of Planning and Investment Department in 2000-2002, as the Chair of Hoang Hoa District People's Committee in 2002-2004, and as the Permanent Deputy Chair of the Provincial People's Committee from 2004 to 2010. Since 2010, His Excellency Mr. Chu Pham Ngoc Hien has been the Deputy Minister of Viet Nam's Ministry of Natural Resource and Environment.

Session 2 Chair

Prof. Wong Poh Poh

Professor, University of Adelaide, South Australia

Professor Wong Poh Poh is a trained coastal geomorphologist that has a wide working experience with the coasts of Southeast, South and East Asia and Indian Ocean islands. He obtained his Ph.D from McGill University. He is currently a Visiting Associate Professor at the School of Social Sciences and Centre for Coastal Research at the University of Adelaide, South Australia. He is also involved with the current Asia-Pacific Region Global Environment Outlook-6 (GEO-6) Assessment as the Coordinating Lead Author (CLA). From 2012–2014, he worked as an Advisor/Consultant for two projects under the Coordinating Body on the Seas of East Asia (COBSEA). In 2005, he was part of the Millennium Ecosystem Assessment (MEA) that won the Zayed Environment Prize. In 2007, he was part of the Intergovernmental Panel on Climate Change (IPCC) that won the Nobel Peace Prize jointly with former US President Al Gore.

Session 3 Chair

Dr. Zhanhai Zhang

Director General, Department of Strategic Planning and Economy, State Oceanic Administration, PR China

Dr. Zhanhai Zhang served with the State Oceanic Administration (SOA) of China since 2007, and is currently its Director General of the Department of Strategic Planning and Economic Development. He was the National Focal Point of China to UNESCO/IOC from 2007 to 2013 and served as the Chairman of the UNESCO/IOC Sub-Commission for the Western Pacific from 2008 to 2012. Dr. Zhang also has experience in polar oceanography and research mainly focused on ocean-ice-atmosphere interaction processes in polar region, including sea ice geophysics, coupled ocean-ice modeling, response and feedback of sea ice variation to climate change.

| Plenary Keynote Speakers and Panelists

Plenary Keynote 1

Mr. Chu Pham Ngoc Hien

Deputy Minister, Ministry of Natural Resources and Environment (MONRE), Viet Nam

With a Master's degree in Economics, His Excellency Mr. Chu Pham Ngoc Hien started as a lecturer for the Economic Faculty at the Da Nang University of Science and Technology, then for the Planning Faculty of the Da Nang University of Economics. He was part of the Provincial Standing Party Committee from 2000-2002, was the Chair of Hoang Hoa District People's Committee from 2002-2004, and was the Permanent Deputy Chair of the Provincial People's Committee from 2004 to 2010. Since 2010, he has been the Deputy Minister of Viet Nam's Ministry of Natural Resource and Environment.

Panelists:

Dr. Gunnar Kullenberg, Former Executive Secretary/Director General, International Oceanographic Commission of UNESCO

Dr. Yoon Jin Sook, Former Minister, Ministry of Oceans and Fisheries, RO Korea

Mr. Christian Severin, Senior Environment Specialist, GEF

Plenary Keynote 2

Mr. Emani Kumar

Deputy Secretary General and Director of the ICLEI South Asia Secretariat

As ICLEI's Deputy Secretary General, Mr. Emani Kumar works with all the offices in Asia to ensure cohesion in implementation of ICLEI's agendas and spearhead advocacy activities in the region; he also supports the Secretary General in representing ICLEI at all international forums. With degrees in Environmental Management, Environmental Planning and Civil Engineering, he has more than 18 years of professional experience on issues related to climate change policy and planning, local governance, renewable energy and energy efficiency, social accountability, systems management and auditing.

Panelists:

Mr. Nguyen Ngoc Tuan, Vice Chairman of Danang People's Committee

Dr. Delfin Ganapin, Global Manager, UNDP GEF Small Grants Programme

Mr. Samuel Gumarin, M.D., Governor, Guimaras Province, Philippines

Plenary Keynote 3

Mr. Charles Goddard

Editorial Director, The Economist Asia Pacific

Mr. Charles Goddard leads the Economist Intelligence Unit's editorial services in Asia-Pacific, including Corporate Network, a peer group for senior decision-makers of global businesses operating in the region. A journalist by background, he has worked across a range of publications and services at the Economist Intelligence Unit, including as author of the China Market Atlas series and director of its research divisions. He is also executive director of *The Economist's* World Ocean Summit, a global series of events on the sustainable use of our seas.

Panelists:

Ms. Christine Valentin, Director for Strategy, Members and Finance, World Ocean Council

Dr. Doan Duy Khuong, Chairman, Viet Nam Business Council for Sustainable Development

Ms. Charmaine Canillas, Vice President, Bataan Coastal Care Foundation and General Manager, Petron Foundation, Inc.

A Decade of Partnerships in Sustainable Development of the Seas of East Asia: Synergies and Achievements

Session 1

A Decade of Partnerships in Sustainable Development of the Seas of East Asia: Synergies and Achievements

Session Chair:

Mr. Chu Pham Ngoc Hien

Deputy Minister
Ministry of Natural Resources and
Environment (MONRE), Viet Nam

This session explores the progress and achievements in coastal and ocean governance since the signing of the Putrajaya Declaration adopting the Sustainable Development Strategy for the Seas of East Asia (SDS-SEA) in 2003 and explores new challenges and international commitments, and their impact on important coastal and ocean sectors and economies in the region.

Workshop Topics:

Workshop 1

Managing Risks in Climate Change and Disasters in the Seas of East Asia

Workshop 2

Maritime Sector Contributions to a Blue Economy for the Seas of East Asia

Workshop 3

Coastal and Ocean Governance in the Seas of East Asia: from Nation to Region

Session 1

Workshop 1

Managing Risks in Climate Change and Disasters in the Seas of East Asia

CO-CONVENING AGENCY:

Schedule: 17–18 November
1030 – 1800

Venue: Furama Ballroom 1

Chair: **Mr. N.M.S.I. Arambepola**
Director
Asian Disaster Preparedness
Center (ADPC)

The workshop will re-visit the progress made, including the challenges, to advance climate change adaptation (CCA) and disaster risk and reduction (DRR) in the seas of East Asia. It will showcase on-the-ground good practices, working models and innovative solutions; and highlight how an integrated approach has been helping local governments to adapt, prepare and respond to climate change and disaster risks.

The workshop will also tackle the need for a strategic framework for CCA/DRR in the EAS region, and how its implementation can be facilitated and scaled up through:

1. the transfer and replication of working models and good practices;
2. identifying priority areas for implementation, key targets, needs, and challenges; and
3. identifying opportunities for knowledge sharing and collaborative efforts.

Day 1

NOVEMBER 17

Venue: Furama Ballroom 1

P R O G R A M M E

International, Regional and National

Part 1: Addressing the New Challenges in Managing Risks

1030 - 1035

Opening Remarks

Dr. Chang Man, Korea Marine Environment Management Corporation, RO Korea

1035 - 1045

Workshop Chair's Introduction

Mr. N.M.S.I. Arambepola, Asian Disaster Preparedness Center (ADPC)

1045 - 1120

Keynote Presentation

Mr. Abhilash Panda, UN Office for Disaster Risk Reduction (UNISDR)

1120 - 1140

Towards Urban Risk Reduction: Experience from EAS Region

Mr. N.M.S.I. Arambepola and **Mr. Anisur Rahman**, ADPC

Part 2: Towards Convergence: Unpacking the Obstacles on Integrating Disaster Risk Reduction and Climate Change Adaptation in Development Planning Process

1140 - 1230

Panel Discussion on the Obstacles in Policy, Research and Practice Including Constraints in: International and National Policy Processes; Funding Institutions and Support Mechanisms; Research and Sharing of Knowledge

Panelists:

Mr. Pham Van Tan/Mr. Le Minh Nhat, MONRE, Viet Nam

Dr. Antonio La Viña, Partnerships in Environmental Management for the Seas of East Asia (PEMSEA)

Mr. Abhilash Panda, UNISDR

Mr. N.M.S.I. Arambepola and **Mr. Anisur Rahman**, ADPC

Part 3: Overcoming Institutional and Practical Difficulties

- 1400 – 1420** **Strategies in Responding to Disappearing Coastlines**
Prof. Wong Poh Poh, University of Adelaide, South Australia
- 1420 - 1440** **Ocean Observation to Increase Predictability in Climate Change Adaptation: Status of Scientific Studies and Challenges in Asia and Pacific**
Prof. Qiao Fangli, First Institute of Oceanography (FIO), China
- 1440 - 1500** **Climate Change Policies and Actions in the Ocean and Fisheries Sector of the Republic of Korea**
Dr. Lee Suk-hui, Korea Marine Environment Management Corporation (KOEM), RO Korea
- 1500 – 1520** **Strengthening Public-Private Partnerships for Disaster Risk Management and Community Resilience in Viet Nam**
Mr. Nguyen Tri Thanh, Asia Foundation
- 1520 – 1540** **Funding Mechanisms for CCA and DRR**
Mr. Pradeep Kurukulasuriya, United Nations Development Programme (UNDP)
- 1540 – 1600** **Open Forum**
- 1615 – 1645** **Strengthening PEMSEA's Contribution in CCA/DRR in the EAS Region**
Dr. Antonio La Viña, PEMSEA
- 1645 – 1745** **Panel discussion on Synergizing Actions to Complement those Set Forth by the Three International Instruments**
- Panelists:**
Mr. Titon Mitra, UNDP Philippines
Mr. N.M.S.I. Arambepola, ADPC
Prof. Qiao Fangli, FIO, China
Ms. Bui Hoa Binh, Integrated Coastal Management Programme, GIZ Vietnam
National Climate Change/Disaster Office (Philippines)
- 1745 – 1800** **Wrap up**
Workshop Chair

Day 2

NOVEMBER 18

Venue: Furama Ballroom 1

PROGRAMME

Local Contributions

1030 – 1040

Recap of Previous Day's Discussion
Mr. N.M.S.I. Arambepola, ADPC, Workshop Chair

1040 – 1110

Responding to Climate Change and Disaster Risk through Local Actions
Dr. Park Kwang Kook, Korea Environment Institute (KEI), RO Korea

Part 4: Good Practices and Working Models: Contributions to the Adapt Strategy

Local Contributions to Mainstreaming CCA/DRR in Planning and Management

1110 - 1130

Integrating CCA/DRR in Local Planning and Management
Mr. Nguyen Thanh Tien, Da Nang Department of Construction, Viet Nam

1130 - 1150

Environmentally and Climate-friendly Urban and Coastal Development for Climate Change Adaptation
Mr. Jo Yong Chol, Nampho ICM Center, DPR Korea

Innovative local solutions to CCA/DRR

1150 – 1210

Climate Change Adaptation and Disaster Risk in Coastal Areas of Sukabumi Regency, West Java, Indonesia
Mr. Denis Eriska, Sukabumi ICM PMO, Sukabumi, Indonesia

1210 - 1230

Use of Ecosystem Service Framework to Inform Policy Decisions on CCA and DRR
Dr. Choong-Ki Kim, KEI, RO Korea

1400 - 1420

Land Subsidence and CCA in Jakarta Bay, Indonesia
Dr. Park Hansan, Korea Institute of Ocean Science and Technology (KIOST), RO Korea

- 1420 – 1440** **Sustaining Coastal and Marine Ecosystem Services for Climate Change Adaptation and Disaster Risk Reduction**
Ms. Nisakorn Wiwekwin, Chonburi ICM Program, Chonburi, Thailand
- 1440 – 1515** **Panel discussions**
- **Replicability to other sites**
 - **Challenges and constraints**
- Panelists:**
Dr. Stefan Groenewold, Integrated Coastal Management Programme, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Viet Nam
Ms. Nguyen Thi Viet Phuong, Integrated Coastal Management Programme, GIZ Vietnam
Mr. Nguyen Tri Thanh, Asia Foundation
National Climate Change/Disaster Office (Philippines)
- Building Back Better**
- 1515 – 1535** **Post-Haiyan Recovery**
Ms. Alma Evangelista, UNDP Philippines
- 1535 – 1555** **Lessons from the 2004 Indian Ocean Tsunami Recovery: Efforts, Problems and Solutions for Better Reconstruction in Developing Countries**
Dr. Abdul Muhari, Ministry of Marine Affairs and Fisheries (MOMAF), Indonesia
- 1555 – 1615** **Post-tsunami Recovery of Port and Harbor Areas in Japan from the 2011 Great East Japan Earthquake Tsunami**
Mr. Kazuhiko Honda, Ministry of Land, Infrastructure, Transport and Tourism (MLIT), Japan
- 1630 – 1700** **Panel Discussions**
- **Distilling lessons learned from post-recovery efforts**
 - **How can ICM respond to post-recovery efforts?**
- Panelists:**
Dr. Wong Poh Poh, University of Adelaide, South Australia
Dr. Abdul Muhari, MOMAF, Indonesia
Mr. N.M.S.I. Arambepola, ADPC

Part 5: Implementing the Adapt Strategy...Way Forward

1700 – 1800

Synthesis, Wrap up and Conclusions

- Distill the learning experiences from the presented case studies and how these experiences can be scaled up, transferred or replicated in other sites.
- Identify priority areas, gaps and challenges for CCA/DRR in the EAS region
- Identify opportunities for knowledge-sharing, replication and collaborative efforts for advancing CCA/DRR in the EAS region.

Workshop Chair/Co-Chairs

Session 1

Workshop 2

Maritime Sector Contributions to a Blue Economy for the Seas of East Asia

CO-CONVENING AGENCY:

IPIECA

Partner by
giz
 Deutsche Gesellschaft
 für Internationale
 Zusammenarbeit (GIZ) GmbH

SUPPORTING AGENCIES:

Schedule: 18 November
1030 – 1800

Venue: Non Nuoc 1 and 2

Co-Chairs: **Mr. Brian Sullivan**
Executive Director, IPIECA
Ms. Franca Sprong
Project Director, GIZ–Sustainable Port
Development in the ASEAN Region

The maritime transport sector is considered as a major contributor to blue economy in the East Asian Seas region and has been recognized as the backbone to world trade and globalization.

Increase in world trade means increase demands for the maritime transport and its related services. Thus, the maritime sector is now faced with the challenge of how to advance the growth potentials of the maritime economy while minimizing the environmental impact of its activities.

This workshop on *Maritime Sector Contributions to a Blue Economy for the Seas of East Asia* will deliberate on the growth potentials of shipping, port and oil and gas industry, their economic contributions to world trade, opportunities available in each sector and areas for further development. A major discussion in this workshop is how these sub-sectors of the maritime industry are able to balance the increasing demand for its services with environmental sustainability.

In response to the call to mainstream sustainability criteria into planning processes, policies and investment strategies in government, the workshop aims to develop a road map which will promote the development of a blue economy in the EAS region through a sustainable maritime transport system that enables growth of the maritime economy while protecting the marine environment.

Coffee break

1630 – 1700

Open Discussion

Part 3: Workshop Conclusions and Recommendations

1700 – 1800

Moderated Discussion: Roadmap to Promote Blue Growth in the EAS Region to Maximize Sustainable Use of the Oceans and Seas while Enabling Growth of the Maritime Economy and Coastal Regions

Session 1

Workshop 3

Coastal and Ocean Governance in the Seas of East Asia: from Nation to Region

CO-CONVENING AGENCY:

Schedule: 18–19 November
1030 – 1800

Venue: Furama Ballroom 3

Chairs: **Ms. Lena Kern,**
Chief Advisor,
GIZ SSME Project
Dr. Gunnar Kullenberg,
Former Executive Secretary/
Director General, International
Oceanographic Commission of
UNESCO
Mr. Hiroshi Terashima
President, Ocean Policy
Research Institute - Sasakawa
Peace Foundation (OPRI-SPF)
Dr. Chua Thia-Eng
Chair Emeritus, EAS Partnership
Council

The six Large Marine Ecosystems (LMEs) and subregional seas of East Asian region are experiencing physical, ecological and socioeconomic changes associated with infrastructure development, urbanization, extreme climate events, land and sea-based activities, and population increase. International cooperation at regional and LME levels has facilitated in many ways collaborative responses among countries to the challenges and uncertainties with countries' adoption of ocean policies and measures in alignment with the regional action programs such as the strategic action programme (SAP) and regional sustainable development strategy.

What are the drivers that have shaped the regional coast and ocean governance? What achievements and impact have these regional governance mechanisms made in addressing overfishing, eutrophication, loss of coastal and marine biodiversity and other transboundary issues in the last decade? What are the gaps in our understanding of the coasts and oceans? What are the innovative implementation and governance mechanisms for SAPs and the regional strategy? What should the collaborating countries do in terms of policy and regulatory framework and institutional arrangements to make these regional mechanisms and initiatives work more effectively? This workshop is designed to facilitate regional and national initiatives to respond to the ocean agenda enshrined in the Future We Want at Rio+20 and SDGs.

Day 1

NOVEMBER 18

Venue: Furama Ballroom 3

PROGRAMME

Regional and National

1030 – 1100

Keynote Presentation: Regionalizing the SDGs – Perspectives of the UNDP/GEF

Dr. Andrew Hudson, UNDP Water and Ocean Governance Programme, Bureau for Policy and Programme Support, UNDP

1100 – 1130

Towards Good Regional Ocean Governance – Status, Gaps and Policy Recommendations at Regional and National Levels

Ms. Lena Kern, GIZ SSME Project

Part 1: From Johannesburg Plan of Implementation to SDGs: Meeting the Aspirations of Nations in Regional Seas Governance

Chair: Ms. Lena Kern

1130 – 1230

Panel 1: Regional Seas Governance Mechanisms: Drivers, Progress and Lessons Learnt

Panelists:

- **Dr. Tonny Wagey**, ATSEA Regional Project
- **Dr. Widi Agoes Pratikto**, CTI-CFF Regional Secretariat
- **Mr. Stephen Adrian Ross**, PEMSEA
- **Dir. Rayner Stuel Galid**, SSME Tri-national Committee
- **Dr. Sung Kwon Soh**, WCPFC
- **TBD**, Regional Seas Programme, UNEP
- **Dr. Alexander Tkalin**, NOWPAP

1400 – 1600

Panel 1 (continued) with Open Forum: Regional Seas Governance Mechanisms: drivers, progress and lessons learnt

1615 – 1745

Panel 2: Partnerships for Win-Wins Towards Achieving the SDGs**Panelists:**

- **Mr. Thai Van Quang**, Department of Agriculture and Rural Development, Da Nang, Viet Nam
- **Atty. Roberto Oliva**, ASEAN Center for Biodiversity (ACB)
- **Mr. Roberto Baylisis**, Southern Philippines Deep Sea Fishing Association
- **Dr. Theresa Mundita Lim**, CTI MPA TWG
- **Dr. Toni Ruchimat**, TWG on CTI-CFF Ecosystem Approach for Fisheries Management, and Capture Fisheries, MoMAF, Indonesia
- **Dr. Chung Fungchen**, Reef Guardian, Sabah, Malaysia
- **Dr. Sulan Chen**, UNDP GEF Small Grants Programme

Panel 2 (continued) with Open Forum: Partnerships for Win-Wins Towards Achieving the SDGsFacilitator: **Dr. Gunnar Kullenberg**

1745 – 1800

Wrap up of day 1**Ms. Lena Kern** and **Dr. Gunnar Kullenberg**

Day 2

NOVEMBER 19

Venue: Furama Ballroom 3

PROGRAMME

National and Local

Part 2: **Development of Ocean Policies in the Seas of East Asia – Case studies of Selected Countries**

Co-Chairs: **Dr. Chua Thia-Eng**, Chair Emeritus, EAS Partnership Council

Mr. Hiroshi Terashima, President, Ocean Policy Research Institute - Sasakawa Peace Foundation (OPRI-SPF)

1030 – 1110

Keynote presentation: Development of Ocean Governance at the National and Local Level under the Framework of UNCLOS, the Future We Want and SDGs

Mr. Hiroshi Terashima, OPRI-SPF

1110 – 1230

Panel 1: Case Studies of Selected Countries

Panelists:

- **Mr. Toshiyuki Onuma**, Ministry of Land, Infrastructure, Transport and Tourism (MLIT), Japan
- **Prof. Cheong Wei Min Denise**, Centre for International Law, National University of Singapore
- **Ms. Liu Yan**, China Institute for Marine Affairs, State Oceanic Administration, China
- **Dr. Cheryl Rita Kaur**, Centre for Coastal and Marine Environment Maritime Institute of Malaysia (MIMA)
- **Ms. Pham Thi Gam**, Department of Policy and Legislation, VASI, MONRE
- **Mr. Bamroongsak Chatanathawej**, Office of the Marine and Coastal Resources Conservation, Department of Marine and Coastal Resources, Ministry of Natural Resources and Environment, Thailand

1400 – 1430

Panel 2: Case Studies of Selected Countries (continued)

Panelists:

- Director General, Marine Spatial Management, MoMAF, Indonesia
- **Dr. Jiyeon Choi**, Marine Policy Research Department, Korea Maritime Institute (KMI), RO Korea
- **Atty. Rodolfo Ferdinand Quicho**, GEF Small Grants Programme, Philippines

1430 – 1600

Panel discussion: Development and Impact of National Ocean Policies**Panelists:**

- **Presenters in Part 1 and 2**
- **Prof. Shin Kisugi**, The Open University of Japan
- **Mr. Keita Furukawa**, OPINEAR

1615 – 1700

Closing Session: Keynote: SDS-SEA – The Roadmap Towards Achieving SDGs in the EAS Region**Usec. Analiza Teh**, EAS Partnership Council, PEMSEA**Panel discussion, with focus on:**

- Do PEMSEA and the SDS-SEA provide an adequate framework and platform for strengthening collaboration and coordination of efforts across regional and country-driven programmes?
- What are the existing limitations and how can they be overcome?
- What are some of the desired outcomes and expectations in the next 5 years?

Panelists:

- **Mr. Chris Severin**, Global Environment Facility (GEF) Secretariat
- **Dr. Widi Agoes Pratikto**, CTI-CFF Regional Secretariat
- **Ms. Lena Kern**, GIZ SSME Project
- **Dr. Vo Si Tuan**, WESTPAC and Institute of Oceanography, Viet Nam Academy of Science and Technology, Viet Nam
- **Mr. Hiroshi Teroshima**, OPRI-SPF
- **Mr. Chu Pham Ngoc Hien**, MONRE, Viet Nam

1700 – 1800

Summary and Consensus-Building on Key Messages and Recommendations to the Plenary Workshop Chairs: Ms. Lena Kern, Dr. Gunnar Kullenberg, Mr. Hiroshi Terashima and Dr. Chua Thia-Eng

Accelerating Actions for Sustainable Development and Climate Change

Session 2

Accelerating Actions for Sustainable Development and Climate Change

Session Chair:

Prof. Wong Poh Poh

Professor

University of Adelaide,
South Australia

This session will review best practices and lessons learned in addressing issues such as climate change adaptation, biodiversity conservation, marine pollution and waste management, food security, alternative livelihoods and water use conservation and management through the application of integrated coastal management (ICM).

Workshop Topics:

Workshop 1

Scaling up ICM: Innovations and Impacts at Local, National and Regional levels

Workshop 2

Application of Knowledge Management in Scaling Up Partnership Investments in Sustainable Development and a Blue Economy

Workshop 3

Valuation of Coastal Ecosystem Services and Benefits and Coastal Use Zoning Tools for Better Planning and Implementation

Session 2

Workshop 1

Scaling up ICM: Innovations and Impacts at Local, National and Regional Levels

CO-CONVENING AGENCY:

This workshop will focus on ICM applications at the local level, national and regional levels, and the contributions that ICM has made to improving governance and management of coastal and ocean areas and related resources, as well as sustainable economic growth and social benefits. Examples of innovative applications of ICM will be presented, including governance partnerships with local communities (e.g., *Satoumi*), the business sector and/or scientific communities, greening of communities, biodiversity and habitat conservation/rehabilitation, food security (i.e., fisheries, aquaculture), alternative livelihood development, water resources and pollution management, strengthening the resiliency of coastal communities and impoverished households, etc.

This workshop will also consider the transferability of innovations and lessons learned for managing marine and coastal areas and resources at the national and regional levels to other sustainable development priorities and programs in the EAS region, as well as to other regions of the world.

Schedule: 17–18 November
1030 – 1800

Venue: Furama Ballroom 2

Co-Chairs: **Dr. Keita Furukawa**
Director, Marine Research and
Development, Ocean Policy
Research Institute (OPRI), Japan
Dr. Gil Jacinto
Professor, The Marine
Science Institute, University of the
Philippines, President, Coastal
Management Center

Day 1

NOVEMBER 17

PROGRAMME

1030 – 1045

Introduction of the Workshop

Workshop Co-Chairs

1045 – 1115

Keynote Presentation:

Two decades of Integrated Coastal Management Implementation in the Seas of East Asia: What have we learned?

Dr. Chua Thia-Eng, Chair Emeritus, East Asian Seas Partnership Council

1115 – 1130

Open Forum

Workshop Co-Chairs

Part 1A: Good Practices, Innovation and Impacts in ICM Applications at the Local Level

Venue: Furama Ballroom 2

Co-Chairs: **Dr. Gunnar Kullenberg**, Former Executive Secretary/Director General, International Oceanographic Commission of UNESCO

Ms. Clarissa Arida, Director for Programme Development and Implementation, ASEAN Centre for Biodiversity (ACB)

1130 – 1150

Introduction of the Session

Session Co-Chairs

1150 – 1210

Integrated Coastal Management Program in the Mekong Delta: Accelerating Practical Solutions in Managing and Protecting Coastal Ecosystems

Dr. Stefan Groenewold, Integrated Coastal Management Programme (ICMP) in the Mekong Delta, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Viet Nam

1210 – 1230

Building Community Resilience Through ICM Approaches

Ms. Bui Thi Thu Hien, International Union for Conservation of Nature (IUCN) Viet Nam Country Office

- 1400 – 1420** **Social Marketing for More Sustainable Fisheries**
Ms. Rocky Sanchez Tirona, RARE Philippines
- 1420 – 1440** **Marine Spatial Planning for Improved Fisheries Management: Resolving Spatial Conflicts in Balayan Bay, Philippines**
Ms. Regina Bacalso, Ecosystems Improved for Sustainable Fisheries (ECOFISH) Program
- 1440 – 1500** **Strengthening Governance Partnerships at the Local Level and Improving Fisheries Management (Case Study from Northern Mindanao, Philippines)**
Mr. Len Garces, WorldFish, Philippines
- 1500 – 1600** **Panel Discussion:**
- Summary of Good Practices in Improving Governance and Management of Coastal and Ocean Areas and Related Resources at the Local Level
 - Replicability in Other Sites
 - Challenges in Replicating/Scaling Up Good Practices
- Panelists:**
- Ms. Nguyen Thi Phuong Dung**, Department of Natural Resources Conservation, Directorate of Fisheries – Ministry of Agriculture and Rural Development, Viet Nam
- Mr. Sakanan Plathong**, Department of Biology, Prince of Songkla University, Thailand
- Dr. Luky Adrianto**, Center for Coastal and Marine Resources Studies, Bogor Agricultural University, Indonesia
- Dr. Maripaz Perez**, WorldFish, Philippines
- Dr. Christian Henckes**, ICMP in the Mekong Delta, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Viet Nam
- 1615 – 1630** **IRBM Approach to Water Use and Supply Management in the Sedone River Basin**
Mr. Phousavanh Fongkhamdeng, Department of Water Resources, Lao PDR

- 1630– 1645** **Increasing Management Efficiency of Water Resources in Selangor through Close Coordination between IRBM and ICM**
Ms. Norfaezah Binti Shamsuddin, Selangor Waters Management Authority, Malaysia
- 1645 – 1700** **Global Partnership in Nutrient Management: Advancing Good Practices in Nutrient Management**
Dr. Christopher Cox, Global Programme of Action for the Protection of the Marine Environment from Land-based Activities, United Nations Environment Programme
- 1700 – 1715** **Community Engagement for Integrated Management of Waste in Watersheds and Coastlines**
Mr. Douglas Woodring, Ocean Recovery Alliance, USA
- 1715 – 1745** **Panel Discussion:**
- Summary of Good Practices in Implementing Integrated Approaches for River Basin and Coastal Area Management
 - Replicability in Other Sites
 - Challenges in Replicating/Scaling Up Good Practices
- Panelists:**
Dr. Gil Jacinto, Marine Science Institute, University of the Philippines
Dr. Zhaohui Zhang, First Institute of Oceanography, State Oceanic Administration, PR China
Dr. Nguyen Minh Son, Institute of Environmental Technology, Viet Nam
Dr. Anjan Datta, United Nations Environment Programme
- 1745 - 1800** **Workshop Conclusions and Recommendations**
Session Co-Chairs

Part 1B: Good Practices, Innovation and Impacts in ICM Applications in Japan

Venue: Non Nuoc 1 and 2

Co-Chairs: **Keita Furukawa**, Director, Marine Research and Development, Ocean Policy Research Institute and **Prof. Osamu Matsuda**, Professor Emeritus, Hiroshima University

PROGRAMME

1130 – 1200

Keynote Presentation:
ICM Development in Japan
Prof. Shin Kisugi, The Open University of Japan

1200 – 1230

Presentation 1: ICM Development in Japan

Introduction of the Session
Dr. Osamu Matsuda, Hiroshima University

Introduction of the ICM Model Site Project in Japan
Dr. Keita Furukawa, Marine Research and Development, Ocean Policy Research Institute

1400 – 1500

Presentation 2: Locally-led Activities for ICM Implementation in Japan

ICM Following PDCA Cycle-Second Round of the New Satoumi Promotion
Mr. Hideto Uranaka, Satoumi Promotion Section, Agriculture, Forestry and Fishery Department, Shima City

Challenge of Obama City- Future Conference for Coastal City Development
Mr. Hokuto Mikoshiba, Agriculture & Forestry and Fishery Division, Industry Department, Obama City

Reviving the Seto Inland Sea, Japan: Coastal Environment Restoration for ICM Implementation in Bizen City
Mr. Takehiro Tanaka, Research Association for *Satoumi* Creation

1500 – 1545

Presentation 3: Towards Sustainable Coastal Sea (*Satoumi*)**Development of Coastal Management Method to Realize the Sustainable Coastal Sea**

Dr. Tetsuo Yanagi, International Environmental Management of Enclosed Coastal Seas Center

Hypothesis of Multistage Management Scheme for *Satoumi* as Integrated Coastal Management

Prof. Takeshi Hidaka, Kinki University

Present Status of *Satoumi* Activities in Japan: Case Studies on the Role of *Satoumi* in Coastal Management

Dr. Osamu Matsuda, Hiroshima University

1600 – 1700

Panel discussion: Development of ICM Implementation in Japan, From Local to National, Various Types of ICM and Stages

Based on the uniqueness of ICM implementation in Japan, the discussion will extract lessons and good practices from the various case studies and consider the following:

- What are the lessons learned from ICM and *Satoumi* implementation?
- What are the necessary steps and institutional arrangements to implement ICM at the local level?
- What kind of support is expected for local ICM implementation?

Panelists:

- **Presenters**
- **Representatives from PNLG**
- **Ms. Pham Thi Chin**, Da Nang Agency of Seas and Islands, Viet Nam
- **Mr. Luis Awitan**, Provincial Government Environment and Natural Resources Office (PG-ENRO), Batangas, Philippines
- **Ms. Sally Nay**, ICM PMO, Sihanoukville, Cambodia

Day 2

NOVEMBER 18

Venue: Furama Ballroom 2

PROGRAMME

1030 – 1045

Introduction of the Workshop

Workshop Co-Chairs

Part 2: Good Practices, Innovations and Impacts in ICM Applications for MPA and MPA Networks

Co-Chairs: **Atty. Roberto Oliva**, Executive Director, ASEAN Centre for Biodiversity (ACB)

Dr. Maripaz Perez, Country Director, WorldFish, Philippines

1045 – 1100

Introduction of the Session

Session Co-Chairs

1100 – 1115

Improving Biodiversity Conservation and Resilience to Climate Change through Integrated Coastal and Marine Protected Areas Management in the ASEAN Region

Dr. Sheila Vergara, ASEAN Centre for Biodiversity

1115 – 1130

Scaling and Amplifying MPAs for the Effective Conservation of the “Center of Center of Marine Biodiversity,” the Verde Island Passage

Dr. A. Rex F. Montebon, Coastal, Marine, and Fisheries Conservation International Philippines Foundation, Inc.

1130 – 1145

Enhancing Effectiveness of Marine Protected Areas through Networking and Implementation of “Ecological Red-Line”

Dr. Zhao Linlin, First Institute of Oceanography, State Oceanic Administration, PR China

1145 – 1200

Experiences, Good Practices and Lessons Learned in MPA/MPA Networking in the Coral Triangle

Dr. Porfirio Aliño, Marine Science Institute, University of the Philippines

1200 – 1230

**Panel Discussion:
Opportunities for Scaling up Aichi Biodiversity Targets through ICM**

Panelists:

Ms. Janina Korting, Blue Solutions Initiative

Ms. Clarissa Arida, ASEAN Centre for Biodiversity

Mr. Charles Besancon, LifeWeb Initiative, Convention on Biological Diversity Secretariat

Dr. Pham Anh Cuong/ Mr. Tran Ngoc Cuong, Agency for Biodiversity Conservation, Viet Nam Environment Administration, Ministry of Natural Resources and Environment/ Ramsar Viet Nam

Mr. Jake Brunner, IUCN Southeast Asia Group / International Union for the Conservation of Nature (IUCN), Viet Nam Country Office

Part 3: Transferring and Scaling Up of ICM Good Practices and Innovations

Co- Chairs: Atty. Analiza Teh, Undersecretary and Chief of Staff, Department of Environment and Natural Resources, Philippines

Dr. Jose Padilla, Regional Technical Advisor for Marine, Coastal and Island, Ecosystems, Bangkok Regional Hub, United Nations Development Programme

1400 – 1415

Introduction of the Session

Session Co-Chairs

Component 1: Good Practices at the Local Level

1415 – 1435

Coral Restoration and Conservation in Serangan Island, Denpasar City, Bali, Indonesia: Turning Coral Miners into Conservation Advocates

Dr. Ario Damar, Center for Coastal and Marine Resources Studies, Bogor Agricultural University, Indonesia

1435 – 1455

Mobilizing Public and Private Sectors to Improve Coastal Tourism and Beach Management in Sihanoukville, Cambodia

Mr. Prak Visal, Sihanoukville, Cambodia

1455 – 1515

Transforming Traditional Pond Aquaculture to Modern Ecological Aquaculture through Multiple Seawater Use and Application of Industrial Management Practice in Dongying, China

Dr. Dan Yi, The First Institute of Oceanography, State Oceanic Administration, Qingdao, PR China

Component 2: Mechanisms for Scaling Up and Replicating Good Practices**1515 – 1530****Alternative Platform for Addressing Poverty and Hunger in Coastal Communities: Experiences from the Philippines****Ms. Lily Ann Lando**, WorldFish**1530 – 1545****Small Grants Programme: From Local to Global Implementation****Ms. Huyen Thi Thu Nguyen**, Global Environment Facility Small Grants Programme, Viet Nam**1545 – 1600****Transferring Good Practices, Innovative Approaches and Lessons Learned from ICM Implementation in East Asia to Other Regions****Dr. Jose Padilla**, Bangkok Regional Hub, United Nations Development Programme**1615 – 1700****Panel Discussion:**

- Synthesis of good / innovative practices that can be promoted for scaling up/replication,
- Challenges and needs, as well as strategies and opportunities, for scaling up/replication of good practices
- Initiatives of development agencies and organizations to promote and facilitate specific aspects of sustainable development (inclusiveness; gender equity; livelihoods; biodiversity conservation; food security; etc.)
- Key actions to facilitate sharing of good practices and lessons learned and improving partnerships and collaboration across programs in East Asia and other regions

Panelists:**Dr. Chou Loke Ming**, Tropical Marine Science Institute, National University of Singapore**Ms. Amelia Supetran**, United Nations Development Programme Manila**Mr. Christian Severin**, Global Environment Facility**Mr. Samuel Gumarin**, Province of Guimaras, Philippines**Part 4: Workshop Conclusions and Recommendations****1700 – 1800****Synthesis of Discussions, Conclusions and Recommendations from Part 1 to Part 3**

Workshop and Session Co-Chairs

Session 2

Workshop 2

Application of Knowledge Management in Scaling up Public and Private Sector Investments in a Blue Economy

CO-CONVENING AGENCY:

Schedule: 17 November
1030 – 1800

Venue: Furama Ballroom 3

Chair: **Ms. Melanie King**
Senior Advisor
Capturing Coral Reef and Related
Ecosystem Services (CCRES)

The process of capturing, developing, sharing, and effectively using good practices, experiences and knowledge to achieve sustainable development objectives and targets is a challenge to many development projects and programs across the East Asian Seas region. Ultimately, knowledge sharing and management can and should facilitate enhanced capacity and performance of development projects and impact investments for sustainable development of Large Marine Ecosystem (LMEs) and coasts in the EAS region. Knowledge Management (KM) in this workshop refers not only to the tools, products and services, but the networks and relationships that are critical factors in the transference and effective use of good KM practices and platforms.

The workshop will review the application and benefits derived from the products and services in various projects. The workshop will then delve into the potential use of such innovations in other projects and by other sectors, and how a regional KM platform can serve to improve access to, and scale up investments in, good practices.

Scaling-up partnership investments in a blue economy will be the focus of a number of panel discussions in this workshop. We will ask the question, how can KM partnership investment be scaled up in a blue economy? We will ask KM end-users and practitioners in this workshop how private and public partnerships can enhance KM networks and the uptake of KM? Based on the collective input and group discussions of this workshop one of the outcomes will be the development of 'Best Practice Guidelines' for regional KM in a blue economy.

To capture the KM ideas, processes and products in this workshop we will be using graphic recording to capture and convey the presentations and panel discussions. This visual storytelling approach will help us to communicate and share ideas with our knowledge partners

PROGRAMME

- 1030 – 1040** **Chair's Welcome and Introduction to the Workshop**
Ms. Melanie King, Capturing Coral Reef and Related Ecosystem Services (CCRES)
- 1040 – 1110** **Keynote – Building True Blue Knowledge Partnerships, Design Insights from the Global Knowledge Initiative**
Dr. Sara Farley, Global Knowledge Initiative
- 1110 – 1120** **Question and Answer session with the Keynote Speaker**
Facilitator: Ms. Melanie King, CCRES
- Part 1: Building the Case for Knowledge Management**
- 1120 – 1125** **Part 1: Session Introduction to Building the Case for Knowledge Management**
Facilitator: Mr. Mark Paterson, Currie Communications
- 1125 – 1135** **Nongovernmental Organization Case Study**
Knowledge Management for NGO
Dr. Taufiq Alimi, RARE Indonesia
- 1135 – 1145** **Government Case Study**
Knowledge Management for Environment and Natural Resources
Mr. Edwin Domingo, Foreign-assisted and Special Projects Service, Department of Environment and Natural Resources (DENR), Philippines
- 1145 – 1155** **Regional Project case study**
The ASEAN Clearing House Mechanism
Dr. Sheila Vergara, ASEAN Center for Biodiversity

1200 – 1230

Panel Discussion

How end users use knowledge, what their sources of knowledge are and how they package their knowledge across projects and regions in the EAS region as well as to other regions

Panel members:

- **Dr. Taufiq Alimi**, RARE Indonesia
- **Mr. Edwin Domingo**, Foreign-assisted and Special Projects Service, DENR, Philippines
- **Dr. Shiela Vergara**, ASEAN Center for Biodiversity
- **Dr. Sara Farley**, Global Knowledge Initiative
- **Mr. Leonardo Paat**, World Bank
- **Dr. Delfin Ganapin**, UNDP/GEF SGP
- **World Bank projects:**
 - Coral Reef Rehabilitation Project, Indonesia
 - Coastal Resources for Sustainable Development Project, Viet Nam
 - Guandong Agricultural Pollution Control Project, China
 - **Engr. Arnel V. De Mesa**, Philippine Rural Development Project, Philippines
 - **Mr. Conrad Bravante** (TBC), DENR Philippines representing PhilCCAP, Philippines

Part 2: Critical Factors for Successful Knowledge Management

1400 – 1405

Part 2: Session Introduction to the Critical Success Factors for Knowledge Management

Facilitator: Dr. Sara Farley, Global Knowledge Initiative

1405 – 1415

Marine Spatial Planning: A Lesson Learned from the Experiences in Indonesia and Malaysia as Coral Triangle Member Countries

Ms. Monique Sumampouw, WWF-Malaysia Marine Program

1415 – 1425

Using Systems Thinking and “Smart Technology” to Facilitate Social Learning with Communities

Dr. Russell Richards, CCRES

1425 – 1435

EBM Knowledge Management: What Do We Need to Know to Manage?

Dr. Tundi Agardy, Marine Ecosystem Services Program

1435 – 1445

“What Gets Measured Gets Managed,” the Application of the State of the Coasts (SOC) Tool in Managing the ICM of Batangas Province, Philippines

Ms. Loreta Sollestre, Provincial Government-Environment and Natural Resources Office (PG-ENRO), Batangas, Philippines

1445 – 1515

Seas of East Asia (SEA) Knowledge Bank: Presentation and Interaction with a Beta Version of a KM Platform on Coastal and Ocean Governance and Management at the Local, National and Regional Levels**Dr. Serafin Talisayon** and **Mr. Renato Cardinal**, PEMSEA

1515 – 1545

Panel discussion**The ideal conditions for uptake of KM products, services, networks and platforms are and identification of opportunities and linkages for hands on learning across projects, sectors and regions****Panelists:**

- **Ms. Monique Sumampouw**, WWF-Malaysia Marine Program
- **Dr. Russel Richards**, CCRES
- **Dr. Tundi Agardy**, Marine Ecosystem Services Program
- **Ms. Loreta Sollestre**, PG-ENRO, Batangas, Philippines
- **Dr. Serafin Talisayon**, PEMSEA
- **Mr. Renato C. Cardinal**, PEMSEA
- **Dr. Mario Tilman**, National University of Timor-Leste (Representative for Timor-Leste)
- **Dr. Praparsiri Barnette**, Department of Aquatic Sciences Faculty of Science Burapha University (Representative of Chonburi Province, Thailand)
- **Dr. Ario Damar**, Center for Coastal and Marine Resources Studies Bogor Agricultural University, representing the ICM Learning Centers

Part 3: Strategy for Optimizing Knowledge Management

1545 – 1600

Part 3: Session Introduction to the Strategy for Optimizing Knowledge Management

- **Breakout groups**
- **Panel Discussion**
- **Next steps**

Facilitator: Mr. Mark Paterson, Currie Communications**Bringing It Together – with Breakout Groups**

- Key messages from the Workshop
- Identify gaps
- Potential synergies and collaborations
- Interests and participation in next steps

- 1630 – 1700** **Bringing It Together – Breakout Groups (continuation of discussion)**
- 1700 – 1715** **Reporting Back Session**
Breakout Groups Reporting
- 1715 – 1745** **Bringing It Together – What Have We Learnt about Knowledge Management?**
What have we learnt about applying KM in scaling up partnership investments in a blue economy? The panel will also focus on the key learnings and experiences of the KM Workshop regarding:
- Best practice
 - Platforms
 - Hands on learning
 - Visual storytelling – key learnings, synergies and gaps
- Panel members:**
- **Dr. Sara Farley**, Global Knowledge Initiative
 - **Dr. Tundi Agardy**, Marine Ecosystem Services Program
 - **Ms. Melanie King**, CCRES
 - **Dr. Serafin Talisayon**, PEMSEA
 - **Mr. Leonardo Paat**, World Bank
 - **Dr. Sue Pillans**, CCRES
 - **Coral Triangle Initiative – Regional**
- Facilitator: Mr. Christian Severin**, GEF
- 1745 – 1755** **Workshop Wrap up: Where to from here?**
- Best practice guidelines
 - Journal paper
 - Community of Practice
 - Who, what, where and how?
 - The KM story from today
- Mr. Mark Paterson**, Currie Communications
- 1755 – 1800** **Closing Comments**
Ms. Melanie King, CCRES

Session 2

Workshop 3

Valuation of Coastal Ecosystem Services and Benefits and Coastal Use Zoning: Tools for Better Planning and Implementation

CO-CONVENING AGENCY:

Schedule: 19 November
1030 – 1800

Venue: Furama Gallery 1 and 2

Chair: **Dr. Jungho Nam**
Research Fellow
Korea Maritime Institute

Previous valuation was done independent of coastal use zoning and other tools. This workshop aims to emphasize the linkage between the two and how they are used to support better planning and management of coastal and marine areas and resources, to provide social and economic benefits for coastal communities.

It will look into the different ecosystem valuation and coastal use zoning frameworks and methodologies as well as their linkage and their application at the local level. It will bring together practitioners, researchers, policy maker, local stakeholders and communities to:

1. assess the usefulness of these tools;
2. determine the gaps and challenges in the application of these tools and methodologies;
3. identify ways to effectively utilize these for coastal and marine planning and decision-making, particularly at the local level; and
4. build consensus on the wider use of ecosystem valuation and coastal use zoning and methodologies, taking into consideration the participation of local stakeholders in the process.

The workshop will also explore the value of organizing and/or strengthening a network of researchers, practitioners and service providers, which can provide support to local governments in continually developing, improving and promoting ecosystem valuation and marine spatial planning knowledge products and services among policy-makers, planners and managers at the local level.

| P R O G R A M M E

Session 1: Opening of the Workshop and Keynote**1030 – 1040****Chair's Introduction of the Session****Dr. Jungho Nam**, Korea Maritime Institute (KMI)**1040 – 1050****Opening Remarks****Dr. Sung-Gwi Kim**, Korea Maritime Institute**1050 – 1100****Welcoming Remarks****Dr. Jinsook Yoon**, Ministry of Oceans and Fisheries, RO Korea**1100 – 1130****Keynote Presentation****Assessing and Valuing Ecosystem Services for Ocean Zoning****Dr. Tundi Agardy**, Marine Ecosystem Services (MARES) Program**Session 2: Case Study Presentations on Ecosystem Service Valuation and CUZ: Availability, Applicability and Transferability of Tools at the Local Level****1130 – 1150****The Economics of Ecosystems and Biodiversity for Southeast Asia (ASEAN TEEB) Initiative****Mr. Norman Emmanuel Ramirez**, ASEAN Centre for Biodiversity (ACB)**1150 – 1210****Opportunities and Barriers on Incorporating Ecosystem Service Valuation in Marine Planning: A European Perspective****Dr. Tobias Borger**, Plymouth Marine Laboratory (PML), United Kingdom**1210 – 1230****Integrating Coral Reef Ecosystem Services into Marine Spatial Planning****Dr. Peter Mumby**, World Bank/GEF/UQ Capturing Coral Reef Ecosystem Services Project**1400 – 1420****Contribution of Valuation Economy to the Zoning of Proposed Tun Mustapha Marine Parks (TMP) and Semporna Marine Spatial Planning****Ms. Monique Sumampouw**, WWF-Malaysia Marine Program

- 1420 – 1440** **Mapping and Valuing Pelagic Fisheries for Tourism in the Lesser Sunda Ecoregion: Preliminary Results on Manta Rays**
Dr. Luky Adrianto, Yudi Wahyudin and **Benny Osta Nababan**, Centre for Coastal and Marine Resource Studies Bogor Agricultural University, Indonesia
- 1440 – 1500** **Accounting for Sea Space Use in ECOFISH MKBAs – A Preliminary Approach**
Ms. Regina Therese M. Bacalso, Ecosystems Improved for Sustainable Fisheries (ECOFISH) Program and **Ms. Rina Maria Rosales**, Resources, Environment and Economics Center for Studies (REECS)
- 1500 – 1520** **Understanding Economic Values of Seagrass Ecosystem and Implications for Decision Making: A Case Study of Trang Province, Southern Thailand**
Dr. Orapan Nabangchang, School of Economics, Sukothai Thammatirat Open University
- 1520 – 1540** **Quantifying Nature-based Tourism in the Era of Big Data: A Case Study for Jeju Island, RO Korea**
Dr. Choong-Ki Kim, Korean Environment Institute/Environmental Policy Research Group
- 1540 – 1600** **Panel Discussion (Application of the tools at the local level)**
- What are the challenges on the use of these tools?
 - How can the different stakeholders be effectively engaged on the use of the tools and processes?
 - How can these tools and processes be mainstreamed into planning and implementation at the local level?
- Panelists:**
Mr. Norman Emmanuel Ramirez, ACB
Dr. Tobias Borger, PML
Dr. Peter Mumby, University of Queensland
Ms. Monique Sumampouw, WWF-Malaysia Marine Program
Dr. Luky Adrianto, Centre for Coastal and Marine Resource Studies Bogor Agricultural University
Ms. Regina Therese M. Bacalso, Ecosystems Improved for Sustainable Fisheries (ECOFISH) Program
Dr. Orapan Nabangchang, School of Economics, Sukothai Thammatirat Open University
Dr. Choong-Ki Kim, Korean Environment Institute/Environmental Policy Research Group
- 1615 – 1635** **Linking the Value of Ocean Space and Marine Ecosystem to Coastal Reclamation Planning: A Case Study of Xiamen**
Dr. Peng Benrong, College of Environment and Ecology (CEE)/Coastal and Ocean Management Institute (COMI), Xiamen University

- 1635 – 1655** **Mainstreaming of Ecosystem Services in to Decision Making Process through Ecosystem Services Mapping and Valuation – A Case Study of Coastal Area in Ca Mau Province, Viet Nam**
Dr. Kim Thi Thuy Ngoc, Division of Science and International Cooperation, Institute of Strategy and Policy on Natural Resources and Environment, MONRE, Viet Nam
- 1655 – 1715** **Biophysical Approach in Ecosystem Service Valuation: Spatial Emergy Valuation**
Prof. Daeseok Kang, Pukyong National University in Busan, RO Korea
- 1715 – 1730** **Ecosystem Services are Jargons? Challenging Issues in Translating Them into Marine Spatial Policy**
Dr. Jungo Nam, Korea Maritime Institute

Session 3: Plenary: Application of Ecosystem Services Assessment, Valuation and Coastal Use Zoning: Scaling up Tools and Methodologies

- 1730 – 1740** **Valuation Tools and Coastal Use Zoning: A Step towards Application in PEMSEA Sites**
Dr. Natalie Degger, PEMSEA
- 1740 – 1755** • What are the priority/preferred tools and methodologies for valuation and coastal use zoning/ marine spatial planning that can be used at the local level?
 • What kind of training activities should be conducted to strengthen the skills of partners (i.e., University or research institutions) on the use of these tools?
 • What kind of information/case studies/manuals should be made available to support the application of these tools?
 • What kind of researches should be done to support the use of these tools/methodologies?
 • Can we set up a network/use an existing network to assist local sites on valuation and zoning?
- Plenary Chair: Prof. Chul Hwan Koh**, Seoul National University and East Asian Seas Partnership Council, PEMSEA
- Panelists:**
- **Mr. Sakanan Plathong**, Prince of Songkhla University, Thailand
 - **Dr. Hilly Roa-Quiaoit**, Xavier University, Philippines
 - **Dr. Ario Damar**, Bogor Agricultural University, Indonesia
- 1755 – 1815** **Workshop Conclusions and Recommendations**
Workshop Chair

**From Vision to Reality:
Aligning the Global Agenda
with Local Benefits**

Session 3

From Vision to Reality: Aligning the Global Agenda with Local Benefits

Session Chair:

Dr. Zhanhai Zhang

Director General, Department of Strategic Planning and Economy, State Oceanic Administration, PR China

This session will focus on ways and means of addressing issue-specific and region-wide objectives and action programs beyond 2015 under the updated SDS-SEA, UN Sustainable Development Goals (SDGs), the Aichi Biodiversity Targets, and other international commitments.

Workshop Topics:

Workshop 3.1

Matching the Societal Aspiration for a Blue Ocean through Public-Private Partnerships

Workshop 3.2

Future of Coastal Cities

Workshop 3.3

Blue Economy Development: Where are we now? Where are we headed?

Session 3

Workshop 1

Matching the Societal Aspiration for a Blue Ocean through Public-Private Partnerships

CO-CONVENING AGENCY:

Schedule: 17 November
1030 – 1800

Venue: Furama Gallery 1 and 2

Co-Chairs: **Ms. Nataliya Mylenko**
Senior Financial Sector Specialist,
The World Bank
Dr. Ma. Cecilia Soriano
Former Undersecretary of Finance,
Member, Board of Trustees of
Metropolitan Waterworks and
Sewerage System, Philippines
Mr. Yinfeng Guo
Head, Planning and Partnership
Development, PEMSEA

Public-private partnership (PPP) is a useful approach for mobilizing financial resources and expertise to deliver required public services, and providing a performance-based management framework that can strengthen the quality of public services and reduce their costs. But are the enabling environments for PPP in East Asian Seas region contributing to financing public services and infrastructure for sustainable coastal and ocean development? What are the innovative policies, programmes and partnerships being developed and implemented to finance projects that deliver efficient and effective public services while mitigating environmental impact to coastal and marine environments? Are their constraints in the process of transforming a much needed environmental service into a feasible PPP investment project? What are they and how can they be overcome? This workshop seeks to evaluate PPP as an approach to finance public services and infrastructure, and to identify ways and means of scaling up its application among local governments that are implementing ICM programs for sustainable coastal development.

| P R O G R A M M E

Part 1: PPP Policies, Programmes and Mechanisms**Chair: Mr. Yinfeng Guo**, PEMSEA**1030 – 1040****Introduction****Ms. Nataliya Mylenko**, The World Bank**1040 – 1230****PPP Policies and Regulatory Framework and Programs to Support PPP Projects Development****Mr. Ping Fu**, Department of Research and Development, China PPP Center**Dr. Ma. Cecilia Soriano**, Philippines**Ministry of Development Planning (BAPPENAS), Republic of Indonesia****Mr. Dinh Trong Thang**, Central Institute for Economic Management, Ministry of Planning and Investment, Viet Nam**Panel Discussion and Open Forum**

- What are the key lessons learnt in developing PPP projects in areas indicated above?
- What are the limitations/constraints to PPP, especially when applied to sustainable infrastructure at the local level, and how can they be better addressed?

Facilitator: Mr. Yinfeng Guo**Part 2: Case Studies of PPP Projects in Support of Blue Economy Development in EAS Region****Chair: Dr. Ma. Cecilia Soriano****1400 – 1600****Research Practice Models on Public-Private Partnership in Wastewater Treatment in Da Nang****Ms. Nguyen Thi Thu Hong**, Danang Department of Investment and Planning, Vietnam**PPP as a Solution to Watershed Financing: A Case Study of PPP Practice on Nanming River Watershed Management in China****Dr. Lili Gan**, R&D Department, China Water Group Co. Ltd., Beijing, China**PPP Strategy for a new Global Hub town****Dr. Son Diamar**, New “Global Hub” Town Bandar Kayangan, Regency of North Lombok, Province of West Nusa Tenggara, Indonesia

Implementing Septage Management Program Through Public Private Partnership: The Baliwag Water District Experience

Engr. Ma. Victoria E. Signo, Baliwag Water District, Philippines

Panel Discussion and Open Forum

- What are the key requirements for local governments to be PPP ready (i.e., necessary political, social, economic and environmental climate for investment)?
- What are the roles of national government in facilitating/promoting PPP investments for sustainable coastal development?
- How do local governments access the skills and expertise to develop PPP investments?

Facilitator: Dr. Ma. Cecilia Soriano

Part 3: Scaling up PPP investments

Co-Chairs: Ms. Nataliya Mylenko and **Mr. Yinfeng Guo**

1615 – 1700

Small Enterprises Technology Upgrading Program (SETUP): A responsive program to address needs of industry

Dr. Urdujah A. Tejada, Department of Science and Technology, Philippines

Natural Capital Balance Sheet: the Case Study of Sanya, China

Dr. Han Shi, Department of Public Policy City, University of Hong Kong, DeTao Institute of Green Investment

Panel Discussion

- Raising awareness of PPP opportunities at the national and local levels
- Putting in place policies, programs and mechanisms that strengthen the investment climate for PPP for sustainable coastal development
- Accessing or building skills, capacities and services to develop, promote and facilitate PPP projects

Panelists:

Dr. Ma. Cecilia Soriano

Dr. Nguyen Dinh Cung

Dr. Han Shi

Dr. Urdujah Tejada

Dr. Lili Gan

Prof. Quan Wen, State Oceanic Administration, China

Ms. Ma. Victoria E. Signo

1700 – 1800

Conclusions and Recommendations

Ms. Nataliya Mylenko, **Dr. Ma. Cecilia Soriano** and **Mr. Yinfeng Guo**

Session 3

Workshop 2

Future of Coastal Cities

CO-CONVENING AGENCY:

Schedule: 19 November
1030 – 1800

Venue: Furama Ballroom 2

Co-Chairs: **Mr. Prak Sihara**
President
PNLG

Dr. Karenne Tun
Deputy Director
National Biodiversity Centre,
National Parks Board, Singapore

By 2030, the UN estimates, 70% of people will be in our global cities, the hubs of innovation and economy that today provide about 80% of global GDP (World Bank). Cities around the globe are growing fast—more than half of the world's 7.2 billion people now live in one city or another, a number expected to swell to more than 6 billion people living in cities by 2050, mostly in Africa and Asia. Cities now deliver fully three-quarters of global economic activity, totaling more than US\$50 trillion.

Cities around the world have made bold commitments to confront climate change. The Compact of Mayors, announced at the UN Climate Summit in New York City, is convening cities to set ambitious targets and report their performance transparently. Through the Compact, some of the world's leading city networks—C40 Cities Climate Leadership Group, ICLEI - Local Governments for Sustainability, and United Cities and Local Governments (UCLG)—in partnership with 25 organizations are mobilizing their cities to amplify and expand commitments to address climate change.

The objectives of the workshop are:

- To highlight the need for, and critical role to be played by, cities/ local governments in the region to lead the way in sustainable development and combating climate change.
- To increase awareness on the progress, achievements and good practices in sustainable development and climate change mitigation and adaptation among local governments/cities in the region, using ICM as the management framework and platform for action.
- To explore the benefits and opportunities for strengthening PNLG initiatives in sustainable development and climate change through linkages with other international networks of local governments and their programs.

| P R O G R A M M E

Part 1: Introduction to the Workshop**1030 – 1040****Welcome Remarks**

Mr. Prak Sihara, PNLG and
Dr. Karenne Tun, National Biodiversity Centre, National Parks Board, Singapore

1040 – 1100**Keynote Presentation: Coloring the City**

Dr. Jong-Geel Je, Mayor, Ansan City, RO Korea

1100 – 1120**Sustainable Development Initiatives in Obama City, Japan**

Mr. Kouji Matsuzaki, Mayor, Obama City, Japan

1120 – 1140**Singapore Index on Cities' Biodiversity**

Ms. Pei Rong Cheo, National Biodiversity Centre, National Parks Board, Singapore

1140 – 1230**Panel discussion**

- What are the critical issues and challenges to the future of cities in coastal areas of the Seas of East Asia?
- What are good practices that can be applied by “sustainable cities”?
- What are the challenges and how are they being addressed?

Panelists:

Mr. Zhou Lu Min, Ocean and Fishery Bureau, Xiamen, PR China

Mr. Emani Kumar, ICLEI and ICLEI South Asia Secretariat

Mr. Rex F. Montebon, Coastal, Marine, and Fisheries, Conservation International Philippines

Part 2: Good Practices of Cities on Implementing the Global Commitments on Sustainable Development

Co-Chairs: Mr. Prak Sihara, PNLG and **Dr. Karenne Tun**, National Parks Board, Singapore

City/Local Government Presentations**1400 – 1500****Integrated Urban Coastal Management (IUCM) in Singapore**

Dr. Nhung Nguyen, National Biodiversity Centre, National Parks Board, Singapore

Blue Carbon Challenges of Future City Yokohama

Mr. Oshima Takashi, Climate Change Policy Headquarters, Yokohama, Japan

Da Nang as an Environmental City

Mr. Nguyen Dieu, Department of Natural Resources and Environment (DONRE), Da Nang, Viet Nam

City/Local Government Network Presentations**1500 – 1600****Sustainable Coastal Cities: Green, Resilience and Competitiveness Agenda**

Atty. Maria Teresita Lacerna, The World Bank, Philippines

Local Sustainability Initiatives in Southeast Asia

Mr. Victorino Aquitania, International Council for Local Environmental Initiatives (ICLEI) Southeast Asia Secretariat

ASEAN Experiences on Sustainable Cities

Dr. Do Nam Thang, MONRE, Viet Nam

Part 3: Panel Discussion and Wrap up

Mr. Prak Sihara, PNLG and **Dr. Karenne Tun**, National Parks Board, Singapore

1615 – 1715**Panel Discussion**

- What are the global targets in achieving sustainable development at city level and how cities responded to those targets?
- Challenges and gaps in implementing those global targets at city level
- Effective ways of coordinating and collaborating among cities in addressing those agenda
- Way forward

Panelists:

Mr. Nguyen Dieu, Department of Natural Resources and Environment (DONRE), Da Nang, Viet Nam

Mr. Rex F. Montebon, Coastal, Marine, and Fisheries, Conservation International Philippines

Dr. Jong-Geel Je, Mayor, Ansan City

1715 – 1800**Wrap up and Recommendations**

Session 3

Workshop 3

Blue Economy Development: Where are we now?
Where are we headed?

Schedule: 19 November
1030 – 1800

Venue: Furama Non Nuoc 1 and 2

Co-Chairs: **Ms. Cary Anne Cadman**
Environment Sector Coordinator
The World Bank
Dr. Marian delos Angeles
Senior Advisor, Resources,
Environment and Economics Center
for Studies, Inc. (REECs), Philippines

Identification and measurement of the ocean-based and ocean-related economic activities, and their contribution to national economies will be presented during the workshop. Sustainability of such activities will be examined through valuation of ecosystem services and damages. Examples of investments in innovative practices and technologies that contribute to blue economy development, address environmental and resource degradation and climate change impacts, and make economic activities more environmentally sound will also be presented.

The assessment of ocean economy, ocean health and investment opportunities aims to provide the evidence base for setting a policy agenda and roadmap for sustainable management of coasts and oceans, institutionalizing ocean economy-environment accounting, integrating the blue economy assessment into economic development and investment plans, and enabling blue economy investments. Moving from the initial country assessment to reporting of national and regional State of Oceans and Coasts (SOC) will also be explored.

Part 3: Moderated panel discussion: Realizing a Sustainable Blue Economy**Moderator: Dr. Alistair McIlgorm**, Professor, University of Wollongong, Australia**1615 – 1630****Keynote Presentation:****The Blue Economy Conundrum: Prerequisites and Choices for the Future of Oceans and Coasts****Mr. Zhanhai Zhang**, Department of Strategic Planning and Economy, State Oceanic Administration (SOA), PR China**Moderated Panel Discussion**

- Developing the evidence base for policy and enabling environment
- Moving forward: From the ocean economy assessment studies to the National and Regional State of Oceans and Coasts reports
- Innovations and solution options to meet the twin goals of blue economy development and healthy oceans and ecosystems
- Road map and policy recommendations for institutionalizing ocean economy and environment accounting, promoting blue economy investments and innovations, and formulating a blue economy approach to sustainable development of coasts and oceans

Panelists:**Dr. Marian delos Angeles**, Resources, Environment and Economics Center for Studies, Inc. (REECs), Philippines**Mr. Narciso Almeida de Carvalho**, Ministry of Agriculture and Fisheries, Timor-Leste**Dr. Vann Monyneath**, National Council for Sustainable Development, Ministry of Environment, Cambodia**Mr. Heru Waluyo Koesworo**, Marine and Coastal Degradation Control, Ministry of Environment and Forestry, Indonesia**1740 – 1800****Workshop Conclusions and Recommendations****Co-Chairs: Ms. Cary Anne Cadman**, The World Bank, and**Dr. Marian delos Angeles**, REECs, Philippines

The background of the page is a composite image. The top half shows a city skyline at sunset, with buildings reflected in the water. The bottom half features a stylized map of East Asia in shades of orange and red, overlaid on a grid of dotted lines. The overall color scheme is warm, dominated by oranges, yellows, and reds.

Pre-Congress and Special Events

Pre-Congress Event

2nd International Training Program on Marine Ecosystem Services Valuation and Spatial Management Tools

CO-CONVENING AGENCY:

CO-SPONSORS:

Schedule: 16 November
0830 – 1600

Venue: Furama Gallery 3 and 4

In November 2013, a group of experts from Asian countries and Western communities, had a meaningful meeting on ecosystem service valuation and its application to marine spatial planning and management. The experts shared experiences on ecosystem service valuation and development of spatial management tools, and discussed how to incorporate the valuation process into spatial planning and management mechanism. It was, in the Asian region, the first meeting on ecosystem service valuation and its application to spatial management. Participants recognized the importance of developing management tools, as well as capacity building on the use of these tools.

In line with efforts on capacity building, the 1st training program was organized by Korea Maritime Institute (KMI) in cooperation with PEMSEA, Marine InVEST and PacMARA. 20 trainees from China, Cambodia, Indonesia Philippines, and RO Korea participated and enjoyed learning the different spatial management tools developed by KMI, Marine InVEST, and PacMARA. Organizers and trainers encouraged trainees to apply the tools in their respective countries.

Following the training, the 2nd International Workshop on Marine Ecosystem Valuation and Spatial Management Tools was also organized. Issues were identified in developing the management tools and institutionalizing them as part of the national policy regime. Enhancement of international networking and cooperation was firmly acknowledged as a common base that would contribute to tackling the issues.

The objective of the 2nd training program is to encourage more experts and practitioners to develop, adopt and apply the spatial management tools and strengthen their application to coastal and marine management in the region.

| P R O G R A M M E

0830 – 0840**Opening Ceremony**

- **Opening Remarks (KMI)**
- **Welcoming Remarks (PEMSEA)**

0840 – 0900**Introduction to the Program**

- **Backgrounds and Objectives**
- **Overview of the course**
- **Expected outputs**

Dr. Jungho Nam, Korea Maritime Institute (KMI)

Course 1: Marine Assessment and Planning Support System – Marine Suitability Assessment (MAPS-MSA)**0900 – 1030**

- Korea's Legal and Institutional Arrangement for Coastal and Marine Spatial Planning and Management
- Overview of Major Steps in MSA Application
- MSP Boundary Delineation and Grid-Determination
- Identification of Issues/Socioeconomic Activities
- Identification of Data/Information Availability
- Data/Information Determination for Processing at ArcGIS
- Data/Information Preparation for Suitability Assessment at ArcGIS
- Weighting Factor Determination of Each Data/Information Item
- Display of Suitability Assessment of Each Item at ArcGIS
- Merging of Individual Assessment Layers at Arcgis
- Display of Summed-Up Assessment at Each Grid at Arcgis
- Potential Application: Zoning, EIA, Locating/Designation of Marine Uses, Etc.

Dr. Jungho Nam, KMI

Course 2: Marine Assessment and Planning Support System- Spatial Ecosystem Valuation (MAPS-SEV)**1100 – 1230**

- Ecosystem Service Valuation and Emergy as a Biophysical Approach in TEEB
- Overview of Major Steps in ESV Application
- MSP Boundary Delineation and Grid-Determination
- Identification of Issues/Socioeconomic Activities
- Identification of Data/Information Availability
- Data/Information Determination for Processing at Arc-GIS
- Data/Information Preparation for Ecosystem Service Valuation at Arc-GIS
- Display of Emergy Evaluation of Each Data/Information
- Display of Ecosystem Service Values of Individual Data/Information at ArcGIS
- Merging of Individual Value Layers at ArcGIS
- Display of Summed-Up Value at Each Grid at ArcGIS
- Potential Application: Zoning, Trade-Offs, Locating/Designation of Marine Uses, Etc.

Prof. Daeseok Kang, Department of Ecological Engineering, Pukyong National University in Busan, RO Korea

Course 3: Marine Integrated Valuation of Environmental Services and Tradeoffs (InVEST)**1400 – 1530**

- **Introduction to the Natural Capital Approach**
- **Marine Spatial Planning using InVEST Models**
 - Coastal Zone Management in Belize
 - Marine spatial planning in the West Coast of Vancouver Island
 - Firehouse introduction of three InVEST Models used in Belize application
- **Case of Jeju Island of Korea**

Dr. Choong-Ki Kim, Korean Environment Institute (KEI)/Environmental Policy Research Group

1530 – 1600

- **Wrap up**
- **Introduction to the 3rd training program**
- **Closing of the 2nd program**

Dr. Jungho Nam, KMI

Special Event

Seminar on Recent Developments and Trends in Oil Spill Preparedness, Response and Compensation

Schedule: 17 November
1000 – 1700

Venue: Furama Gallery 3 and 4

P R O G R A M M E

- | | |
|--------------------|--|
| 1000 – 1030 | Registration of Participants |
| 1030 – 1040 | Introduction to the Seminar Ms. Diane Factuar , PEMSEA |

Special Event

Roundtable: Investing in a Blue Economy for Conservation and Impact

Schedule: 18 November
1030 – 1700

Venue: Furama Gallery 1 and 2

More investment is needed to protect and enhance critical ecosystem services while contributing to sustainable development and growth of a blue economy. There is no shortage of investment capital available, but investors frequently cite difficulties in sourcing high-quality investable deals as an important factor in preventing them from actively participating in ICM-related sectors. At the same time, projects and social enterprises need a better understanding of investor expectations and potential sources of capital.

In this workshop you will learn about the current ICM investment landscape in East Asia and various investment models being applied in fisheries and other coastal sectors. World Bank and local government representatives will describe specific coastal investment projects at various stages. Get a first look and provide feedback on the investment features in a new regional knowledge management platform designed to help projects and enterprises become more investment-ready and facilitate discovery of investment opportunities.

| P R O G R A M M E

Part 1: Investing in Coasts and Oceans in East Asia**1030 – 1035****Welcome Remarks and Introduction from Chair****Mr. Leonardo Paat**, The World Bank**1035 – 1045****Overview of the World Bank Project *Applying Knowledge Management to Scale up Partnership Investments for Sustainable Development of Large Marine Ecosystems of East Asia and Their Coasts*****Mr. Ryan Whisnant**, PEMSEA**1045 – 1110****Keynote: Investment Landscape Mapping in East Asia for ICM and Blue Economy****Prof. Durreen Shahnaz**, Impact Investment Exchange Asia**Plenary: Investment Models in Marine Sustainable Development****1110 – 1210****Strategic Financing and Investment Models to Achieve Sustainable Marine Fisheries****Mr. Kent Strauss**, Fisheries Research and Innovation, Environmental Defense Fund**Green Bonds and the Potential for Investment in Marine Assets****Ms. Justine Leigh-Bell**, Climate Bonds Initiative**The Vibrant Oceans Initiative and Investment Blueprints for Transition to Sustainable Fisheries****Mr. Trip O'Shea**, Encourage Capital**1210 – 1230****Panel Discussion****Moderator: Mr. Duncan Leadbitter**, Fish Matter

Special Event

Technical and Policy Workshop on Sustainable Nutrient Management in support of the Asian Platform of Global Partnership on Nutrient Management (GPNM)

Supported by the GEF-Global Foundations for Reducing Nutrient Enrichment and Oxygen Depletion from Land-Based Pollution, in Support of Global Nutrient Cycle - (GNC Project)

Schedule: 18 November
1030 – 1800

Venue: Furama Gallery 3 and 4

Objectives:

Technical Session

- Present state of the art in science and other knowledge contributions to understanding the nutrient challenge
- Present technical and policy tools to support advisory personnel in extension, outreach and decision-making to promote sustainable nutrient management

Policy Session

- Review the scope and importance of the nutrient challenge in the context of sustainable development, food security and environmental quality
- Overview of the global agenda for nutrient management and relevance to regional development agendas
- Mobilize commitments to support and strengthen GPNM Asia Platform

| P R O G R A M M E

TECHNICAL SESSION

- 1030 – 1035** **Welcome Remarks**
Dr. Vu Si Tuan, Viet Nam Administration of Seas and Islands (VASI) and
Dr. Christopher Cox, Global Partnership on Nutrient Management (GPNM) Secretariat
- 1035 – 1045** **Participant Introduction**
- 1045 – 1100** **The Nutrient Challenge in the Global Context**
Dr. Christopher Cox, GPNM Secretariat
- 1100 – 1115** **Global Perspective on Applied Research on Nutrient Management**
Dr. Elisa Berdalet, Institute of Marine Sciences, Barcelona
- 1115 – 1145** **Assessment and Planning for Nutrient Management at the Local Level**
Dr. Ajit Pattnaik, Chilika Development Authority
Ms. Adelina Santos-Borja, Laguna Lake Development Authority
- 1145 – 1200** **Assessment and Planning for Nutrient Management at the National Level**
Dr. Gil Jacinto, University of the Philippines
- 1200 – 1220** **Question and Answer**
- 1220 – 1240** **Technical and Policy Support Tools for Sustainable Nutrient Management**
Mr. Cy Jones, World Resources Institute
- 1240 – 1250** **The Nutrient Challenge Portal**
Dr. Christopher Cox, GPNM Secretariat
- 1250 – 1300** **Question and Answer**

POLICY SESSION**1400 – 1405****Welcome Remarks****Dr. Vu Si Tuan**, VASI and**Dr. Christopher Cox**, GPNM Secretariat**1415 – 1425****The GPNM and its Mandate****Dr. Christopher Cox**, GPNM Secretariat**1425 – 1500****The Asian Regional Policy Context for Nutrient Management****Mr. Thay Chantha/Mr. Sreng Sophal**, Ministry of Environment (MOE), Cambodia**TBD**, Ministry of the Environment and Water Resources (MEWR), Singapore**Dr. Ario Damar**, Bogor Agricultural University, Indonesia**Dr. Domingo Bravo**, Department of Natural Resources and Environment, Philippines**Dr. Quan Wen**, State Oceanic Administration, PR China**Dr. Jungho Nam**, Korea Maritime Institute, RO Korea**Dr. Sakanan Plathong**, Prince of Songkla University, Thailand**Dr. Nguyen The Chinh**, Institute of Strategy and Policy on Natural Resources and Environment, MONRE, Viet Nam**1500 – 1530****Relevant Regional Level Initiatives****Dr. Muhammad Khurshid**, SACEP Secretariat**Mr. Reynaldo F. Molina**, COBSEA Secretariat**Ms. Nancy Bermas**, PEMSEA**1545 – 1600****Progress toward an Asia Platform of GPNM****Dr. Anjan Datta**, Consulting Expert**1600 – 1630****A Cooperation Framework for the GPNM Asia Platform****Dr. Anjan Datta**, Consulting Expert and **Dr. Christopher Cox**, GPNM Secretariat**1630 – 1730****Plenary Discussion****1730 – 1800****Agreement on Key Action Points****Dr. Christopher Cox**, GPNM Secretariat

Special Event

Blue Economy for Business: Building an East Asian Seas Sustainable Business Network

CO-CONVENING AGENCY:

Schedule: 19 November
1030 – 1730

Venue: Furama Gallery 3 and 4

Companies in East Asia face numerous environmental issues impacting their coastal and marine operations, such as overfishing, loss of coastlines, pollution, sea-level rise and shifting weather patterns, along with increasing levels of public scrutiny for how these issues are managed. Sustainable development has become a strategic consideration for companies looking to position themselves competitively in a growing blue economy.

With the launch of a new Blue Economy for Business in East Asia report, learn about the role of blue economy in the region and hear from companies in various industries including Oil & Gas, Fisheries & Aquaculture, Environmental Services and more. The workshop will identify cross-industry risks, opportunities and areas for collaboration along with potential actions for industry to engage with government on blue economy development. Participants will learn about the new East Asian Seas Sustainable Business Network and its role in developing blue economy in the region.

| P R O G R A M M E

Part 1. Understanding Blue Economy and What It Means for Business

1030 – 1040 **Welcome Remarks and Overview of PEMSEA's Work with Companies on Integrated Coastal Management**

Mr. Stephen Adrian Ross, PEMSEA

1040 – 1100 **Keynote: Launching the *Blue Economy for Business in East Asia* Report**

Mr. Ryan Whisnant, PEMSEA

1100 – 1230 **Industry Perspectives on Sustainable Development of Coasts and Oceans**

Oil & Gas

Mr. Yhenda Permana, PT Badak NGL

Fisheries and Aquaculture

Mr. Huw Thomas, Seafood Procurement, Wm Morrison Supermarkets Plc

Mr. Duncan Leadbitter, Fish Matter

Environmental Services

Mr. Arnold Mortera, New Business Development, Manila Water Company

Tourism & Development

Mr. Sun Dong, Dongtian Park Ltd, Hainan Province, China

Coastal Manufacturing & Heavy Industry

Mr. Widjayadi, Environment and Quality Management, PT Holcim Indonesia

Question and Answer

Part 2: Workshop: Opportunities for Action in Building a Blue Economy in East Asia

1400 – 1430 Breakout Group Discussions on Industry-Specific Challenges and Opportunities

- Oil & Gas
- Fisheries & Aquaculture
- Environmental Services
- Tourism & Development
- Coastal Manufacturing & Heavy Industry
- Shipping and Ports
- Other Industries

1430 – 1445 Industry Report-back

1445 – 1530 Facilitated Group Discussion on Challenges, Opportunities and Cross-Industry Collaboration

Dr. Mark Milstein, Center for Sustainable Global Enterprise, Cornell University

1530 – 1600 Public-Private Sector Interaction for Enabling Sustainable Development of Coasts and Oceans

Ms. Noraini Binti Roslan, Kuala Selangor District Council, Malaysia

Question and Answer

Part 3: Workshop: Building an East Asian Seas Sustainable Business Network

1615 – 1630 Confirmation of Draft Blue Economy Message to Government Ministers

Mr. Ryan Whisnant, PEMSEA

1630 – 1730 Introduction and Company Priorities for an East Asian Seas Sustainable Business Network

Mr. Ryan Whisnant, PEMSEA

Special Event

PEMSEA Network of Local Governments (PNLG) Forum

Schedule: 20 November
1400 – 1800

Venue: Pullman Hotel

P R O G R A M M E

1400 – 1415

Opening Ceremony

Welcome Remarks (Da Nang)

Mr. Nguyen Ngoc Tuan, Vice Chairman, Da Nang People's Committee, Viet Nam

Welcome Remarks (PEMSEA)

Prof. Chul Hwan Koh, Technical Session Chair, EAS Partnership Council, PEMSEA

Opening Remarks

Mr. Pan Shijian, Secretary-General, PNLG Secretariat

Opening Remarks

Mr. Prak Sihara, President, PNLG

1415 – 1425

Summary Report of the Achievements of PNLG SAP and Dongying Declaration Targets

PNLG Secretariat

1425 – 1440

Election and Oathtaking of New PNLG Officers

New President and Vice President

Mrs. Noraini bt Roslan, Northern Selangor, Malaysia

Mr. Yang Tongzhu, Dongying City, China

1440 – 1530

Induction of New PNLG Members and Signing of the PNLG Charter

New PNLG members

Moderated Panel Discussion

THEME: "Mapping the Sustainable Development Agenda for Coastal Cities and Communities beyond 2015"

1545 – 1600 Part 1: Overview of the International Conference

1600 – 1700 Part 2: Moderated Panel Discussion

Panelists:

Selected PNLG members from:

Mr. Zhao Lianzeng, Vice Mayor of Beihai City, Guangxi, China
Buleleng, Indonesia

Mr. Aristotle Gaza, Board Member, Bataan, Philippines

Dr. Jong-Geel Je, Ansan City, RO Korea

Mr. Nguyen Ngoc Tuan, Vice Chairman, Da Nang People's Committee, Viet Nam

Mr. Victorino Aquitania, Regional Director, ICLEI - Local Governments for Sustainability
Southeast Asia Secretariat

Mr. Makoto Harunari, Technical Session Co-Chair, EAS Partnership Council

Moderator: Mr. Guo Yinfeng, PEMSEA

1700 – 1730 Part 3: Development of PNLG SAP 2016-2021
PNLG Secretariat

1730 – 1800 Recognition of the Outgoing PNLG Officers
PNLG Secretariat

Turnover of the PNLG flag to PNLG Forum 2016 Host

Closing of the Forum

PNLG President and Vice President

1810 – 2000 PNLG Dinner Banquet (Host: Da Nang)

Special Event

Integrated Coastal Management Forum and Workshop on the Message of Viet Nam

CO-CONVENING AGENCY:

Schedule: 19 November
1030 – 1800

Venue: Furama Ballroom 3

Theme: Good practices and barriers in ICM implementation in Viet Nam and promoting cooperation for the protection of natural resources and environment of the Seas of East Asia – Our Interest

The forum will discuss the needs, opportunities and challenges in promoting and strengthening cooperation between Viet Nam and other East Asian Seas countries in the conservation and protection of natural resources and environment for sustainable development of the Seas of East Asia. It will also review the evolution of ICM practices in Viet Nam over the past two decades and identify the good practices and areas for strengthening, including the support mechanisms required to facilitate the development and implementation of the National Action Plan for the implementation of the Viet Nam ICM Strategy to 2020 and Vision to 2030.

| P R O G R A M M E

Co-Chairs: **Dr. Le Dinh Tien**, Ministry of Science and Technology, Viet Nam
Ms. Nancy Bermas, PEMSEA

1030 – 1045 **Introduction**
Dr. Nguyen Le Tuan, Viet Nam Institute of Seas and Islands Research

Welcoming Remarks
Mr. Nguyen Thanh Minh, Viet Nam Administration for Seas and Islands (VASI)

Part 1: Opportunities and Needs for Strengthening Cooperation for Achieving Sustainable Coastal Development in the Seas of East Asia: Recent Developments in Viet Nam

1045 – 1105 **Needs and Opportunities for Cooperation in the Conservation and Protection of Natural Resources and Environment in the Seas of East Asia**
Dr. Nguyen Le Tuan, Viet Nam Institute for Seas and Islands Research

1105 – 1125 **Management, Protection and Exploitation of Fisheries Resources in Viet Nam**
Ms. Nguyen Thi Phuong Dung, Department of Natural Resources Conservation, Directorate of Fisheries, Ministry of Agriculture and Rural Development

1125 – 1145 **Viet Nam – Philippines' Cooperation in Oil Spill Preparedness and Response**
Mr. Le Dai Thang, Bureau of Seas and Islands Resource Control and Environment Protection, VASI

1145 – 1230 **Open forum**

1230 – 1400 **Lunch Break**

Part 2: Charting the future of ICM in Viet Nam

1400 – 1420 **Integrated Coastal Management in Viet Nam: Opportunities and Challenges**
Mr. Pham Van Lam, Bureau of Seas and Islands Use Management, VASI

1420 – 1440 **ICM scaling up in Viet Nam: Supporting the implementation of the National Action Plan**
Ms. Nancy Bermas, PEMSEA

1440 – 1500 Tackling Interlinked Problems in Coastal Management in the Viet Nam's Mekong Delta for a Stronger Coast

Ms. Bui Hoa Binh, Integrated Coastal Management Programme for the Mekong Delta, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Viet Nam

1500 – 1515 Viet Nam Marine Protected Areas Management Effectiveness Evaluation

Ms. Bui Thi Thu Hien, IUCN Viet Nam

1515 – 1530 Experiences in ICM Implementation in Da Nang City

Ms. Pham Thi Chin, Sea and Island Authority, DONRE Da Nang

1530 – 1600 Coffee Break

1600 – 1730 Facilitated Discussion:

Strategic actions for the implementation of the National ICM Strategy

- Policy and institutional arrangements
- Capacity development
- Knowledge, information management and awareness building
- Financing and investment mechanism
- Scientific support
- International cooperation

Panelists:

Quang Ninh
 Nam Dinh
 Thua Thien – Hue
 Quang Nam
 Ba Ria – Vung Tau
 Kien Giang

Part 3. Conclusions and Recommendations

1730 – 1745 Synthesis of Discussions, Conclusions and Recommendations from Parts 1 and 2
Dr. Le Dinh Tien

1745 – 1800 Closing Remarks
Dr. Le Dinh Tien

4th EAS Youth Forum

Charting the Future We Want

Engaging Young Champions for the
Ocean Beyond 2015

Schedule: 16–21 November

Venue: Da Nang People's Committee Hall

The Earth Summit of 1992 and the World Summit on Sustainable Development of 2012 both posited how critical it is to include the youth in achieving sustainable development goals. It is now 2015 and fundamental questions regarding youth participation should be addressed: What role does the youth have in influencing the post-2015 sustainable development agenda? How do governments ensure that the youth are included in the process from the very beginning? How does the youth directly contribute to the achievement of these global targets?

The EAS Youth Forum (YF) is one of the special events of the EAS Congress which was first launched in 2006. The 1st YF adopted the Youth Agenda for the Seas of East Asia, detailing a plan of action on informing, inspiring and involving the region's youth. In 2009, the 2nd YF committed to the sustainable development of the seas of East Asia through the Youth Statement and Country Work Plans. The 3rd YF in 2012 formulated the Changwon Youth Declaration on the Protection of the Seas of East Asia.

Now on its fourth cycle, the EAS Youth Forum (YF4) carries the theme, "Charting the Future We Want: Engaging Young Champions for the Ocean Beyond 2015." The YF4 will gather young leaders in the EAS region to showcase their initiatives contributing to the sustainable development agenda. Putting the youth as actors for, and stakeholders to a healthy world, YF4 will encourage participants to display ideas and convictions, innovative frameworks, approaches and methodologies in addressing pressing environmental issues in their respective communities.
